5.1 CLOSURE OF THE EMRC FACILITIES FOR THE UPCOMING CHRISTMAS/NEW YEAR 2021-2022 AND PUBLIC HOLIDAYS FOR 2022

D2021/20488

PURPOSE OF REPORT

The purpose of this report is to seek approval from Council for the closure of the EMRC facilities over the 2021/2022 Christmas/New Year period and Public Holidays for 2022.

KEY POINT(S)

- It is the standard practice for the EMRC Administration Office to close over the Christmas/New Year period.
- Closure of the waste management facilities open to the community is limited over the Christmas/New Year period and all public holidays.

RECOMMENDATION(S)

That Council approves:

1. The EMRC Administration Office being closed from 5:00pm Friday, 24 December 2021 and on each day thereafter until it re-opens on Tuesday, 4 January 2022 and all public holidays in 2022.
2. The Hazelmere Resource Recovery Park being closed from 3:00pm Friday, 24 December 2021 and on each day thereafter until it re-opens on Tuesday, 4 January 2022 and all public holidays in 2022.
3. The Red Hill Waste Management Facility being closed on Christmas Day (Saturday, 25 December 2021), Boxing Day (Sunday, 26 December 2021), New Year's Day (Saturday, 1 January 2022) and Good Friday (Friday, 15 April 2022).
4. The Mathieson Road Transfer Station (Shire of Mundaring) being closed on Christmas Day (Saturday, 25 December 2021), Boxing Day (Sunday, 26 December 2021), New Year's Day (Saturday, 1 January 2022) and Good Friday (Friday, 15 April 2022).
5. The Coppin Road Transfer Station (Shire of Mundaring) will be closed on Christmas Day (Saturday, 25 December 2021) Boxing Day (Sunday, 26 December 2021) and New Year's Day (Saturday, 1 January 2022).
6. The Baywaste Transfer Station (City of Bayswater) will be closed on Christmas Day (Saturday, 25 December 2021), Boxing Day (Sunday, 26 December 2021), New Year's Day (Saturday, 1 January 2022) and Good Friday (Friday, 15 April 2022).

SOURCE OF REPORT

Chief Executive Officer

BACKGROUND

- 1 Council at its meeting on 8 December 1994 resolved that the Red Hill Waste Management Facility (Red Hill) close on Christmas Day, New Year's Day and Good Friday of each year. Consequently, over the Christmas/New Year period, Red Hill was closed on Christmas Day and New Year's Day. (Ref: DMDOC/148557).
- 2 It has been standard practice in the past to close the EMRC Administration Office during the Christmas and New Year period and to close the Hazelmere Resource Recovery Park (Hazelmere) between Christmas Day and New Year's Day (subject to operational requirements assessed closer to the Christmas/New Year closure period).

- 3 In 2020/2021, the EMRC Administration Office was closed from Thursday, 24 December 2020 and re-opened on Monday 4 January 2021. Hazelmere was also closed during the same period. In consultation with the Shire of Mundaring, the Mathieson Road Transfer Station was closed on Christmas Day (Friday, 25 December 2020) and Boxing Day (Saturday, 26 December 2020). The Coppin Road Transfer Station was closed on Boxing Day (Saturday, 26 December 2020).
- 4 In July 2020, the EMRC began operating the Baywaste Transfer Station on behalf of the City of Bayswater. The Site Agreement states that the facility will close on Christmas Day, New Year's Day and Good Friday annually.

REPORT

- 5 It is proposed that the EMRC Administration Office be closed from 5:00pm Friday, 24 December 2021 and re-open on Tuesday, 4 January 2022. As most enquiries during this period of closure would relate to waste disposal and can be handled at Red Hill, it is considered that customers and/or the general public will not be inconvenienced by this arrangement.
- 6 There may be a requirement for the Hazelmere Commercial and Industrial (C&I) facility to operate over the Christmas/New Year period. It is also possible that contracted customers may require supply of wood fines during this period. An assessment regarding the closure of Hazelmere over the Christmas and New Year period will therefore be made closer to the Christmas/New Year closure period. If the assessment concludes that there is no operational requirement for Hazelmere to remain open, then the proposal is to close that facility from 3:00pm Friday, 24 December 2021 and re-open on Tuesday, 4 January 2022.
- 7 The EMRC Council previously resolved that Red Hill close on Christmas Day, New Year's Day and Good Friday of each year. It is proposed that this arrangement continues with Red Hill being closed on Christmas Day (Saturday, 25 December 2021) and New Year's Day (Saturday, 1 January 2022) for the upcoming Christmas/New Year period and Good Friday (Friday, 15 April 2022). Due to Boxing Day (Sunday 26 December 2021) falling on a Sunday, it is proposed that Red Hill be closed on this day as an addition to the approved closure dates.
- 8 The EMRC operates the Coppin Road and Mathieson Road Transfer Stations on behalf of the Shire of Mundaring. In consultation with the Shire of Mundaring and in accordance with the Site Management Agreement, the Mathieson Road and Coppin Road Transfer Stations will be closed on Christmas Day, Boxing Day and New Year's Day for the 2020/2021 Christmas and New Year period. Both transfer stations will be closed on Good Friday 2022 (non-trading day Coppin Road).
- 9 The EMRC operates the Baywaste Transfer Station on behalf of the City of Bayswater. In consultation with the City of Bayswater and in accordance with the Site Management Agreement, the Baywaste Transfer Station will be closed on Christmas Day and New Year's Day for the 2021/2022 Christmas and New Year period with the addition of Boxing Day as it falls on a Sunday. The Facility will also be closed on Good Friday 2022.

D2021/22013

PURPOSE OF REPORT

To inform Council of the requirement of the *Local Government Act 1995* to conduct a review of the *Eastern Metropolitan Regional Council Standing Orders Local Law 2013* (Standing Orders) forming attachment to this report.

KEY POINT(S)

- Local laws are required to be reviewed within a period of eight (8) years from the day they commenced. EMRC's Standing Orders are now due for review.
- McLeods Barristers & Solicitors has conducted a preliminary review of the Standing Orders and advised that while the current structure is sound, there are a number of minor amendments that should be made.

RECOMMENDATION(S)

That:

1. In accordance with Section 3.16(1) of the *Local Government Act 1995*, Council commences a review of the *Eastern Metropolitan Regional Council Standing Orders Local Law 2013*
2. In accordance with Section 3.16(2) of the *Local Government Act 1995*, local public notice be given of the EMRC proposing to review the *Eastern Metropolitan Regional Council Standing Orders Local Law 2013*.

SOURCE OF REPORT

Chief Financial Officer

BACKGROUND

- 1 Section 3.16 of the *Local Government Act 1995* (the Act) Section 3.16 'Periodic review of local laws' states:

"(1) Within a period of 8 years from the day when a local law commenced or a report of a review of the local law was accepted under this section, as the case requires, a local government is to carry out a review of the local law to determines whether or not it considers that it should be repealed or amended."
- 2 Under the powers conferred by the Act, the EMRC Council resolved on 21 March 2013 to adopt the *Eastern Metropolitan Regional Council Standing Orders Local Law 2013* which were published in the Government Gazette on 26 June 2013.
- 3 Section 3.16 of the Act stipulates the review process which incorporates the following:

S. 3.16 (2) (a)	Giving statewide public notice that the Local Government proposes to review the local law
S. 3.16 (2) (b)	Permitting copies of the local law to be inspected or obtained
S. 3.16 (2) (c)	Allowing 6 weeks from printing of public notice for submissions to be made
S. 3.16 (2a)	Notice to be published and exhibited as though it were a local public notice
S. 3.16 (3)	Local Government to consider any public submissions and prepare a report of the review for Council consideration

S. 3.16 (4) Any determination to repeal or amend the local law to be made by absolute majority

REPORT

- 4 In accordance with legislative requirements the EMRC is required to commence the review of the *Eastern Metropolitan Regional Council Standing Orders Local Law 2013*.
- 5 Section 3.16 of the Act provides for reviewing the currency and suitability of gazetted local laws – this section cannot be used for amending or repealing legislation. When the outcome of the review finds that it is necessary to change an outdated aspect of the law or that the subsidiary legislation has become defunct or obsolete, the local government must then commence the process outlined in Section 3.12 of the Act to implement any changes.
- 6 A preliminary review of the Standing Orders by EMRC's legal advisor has indicated that the current structure is sound and only minor amendments will be required to ensure consistency with current provisions of the *Local Government Act 1995* and regulations and the requirements of the Joint Standing Committee on Delegated Legislation.
- 7 Once the specified public notice period has expired a report, incorporating a summary of any public submissions received, together with the required amendments mentioned above will be presented to Council for consideration.

1 Introduction

This Sustainability Team Program 2022/2023 comprises Urban Environment and Waste Education services and programs and also highlights regional advocacy across a range of sustainability issues.

1.1 Sustainability Team

The Sustainability Team comprises of the Urban Environment Team and Waste Education Services Team. The Urban Environment Team delivers sustainability services associated with working towards Net Zero carbon emissions, energy efficiency, water conservation, climate change mitigation and adaptation, sustainable and integrated transport, economic development and the circular economy. The Waste Education Services Team delivers a range of services focused on avoiding and reducing waste generation in households, communities and businesses. The behaviour change programs offered include Earth Carers, bin tagging, workshops, FOGO (Food Organics Garden Organics) implementation support, and Red Hill Waste Management Facility tours. Other education offerings include community engagement and event support, producing waste and recycling guides, battery and CFL collection program, Culturally And Linguistically Diverse (CALD) brochures, waste plans, and loan boxes.

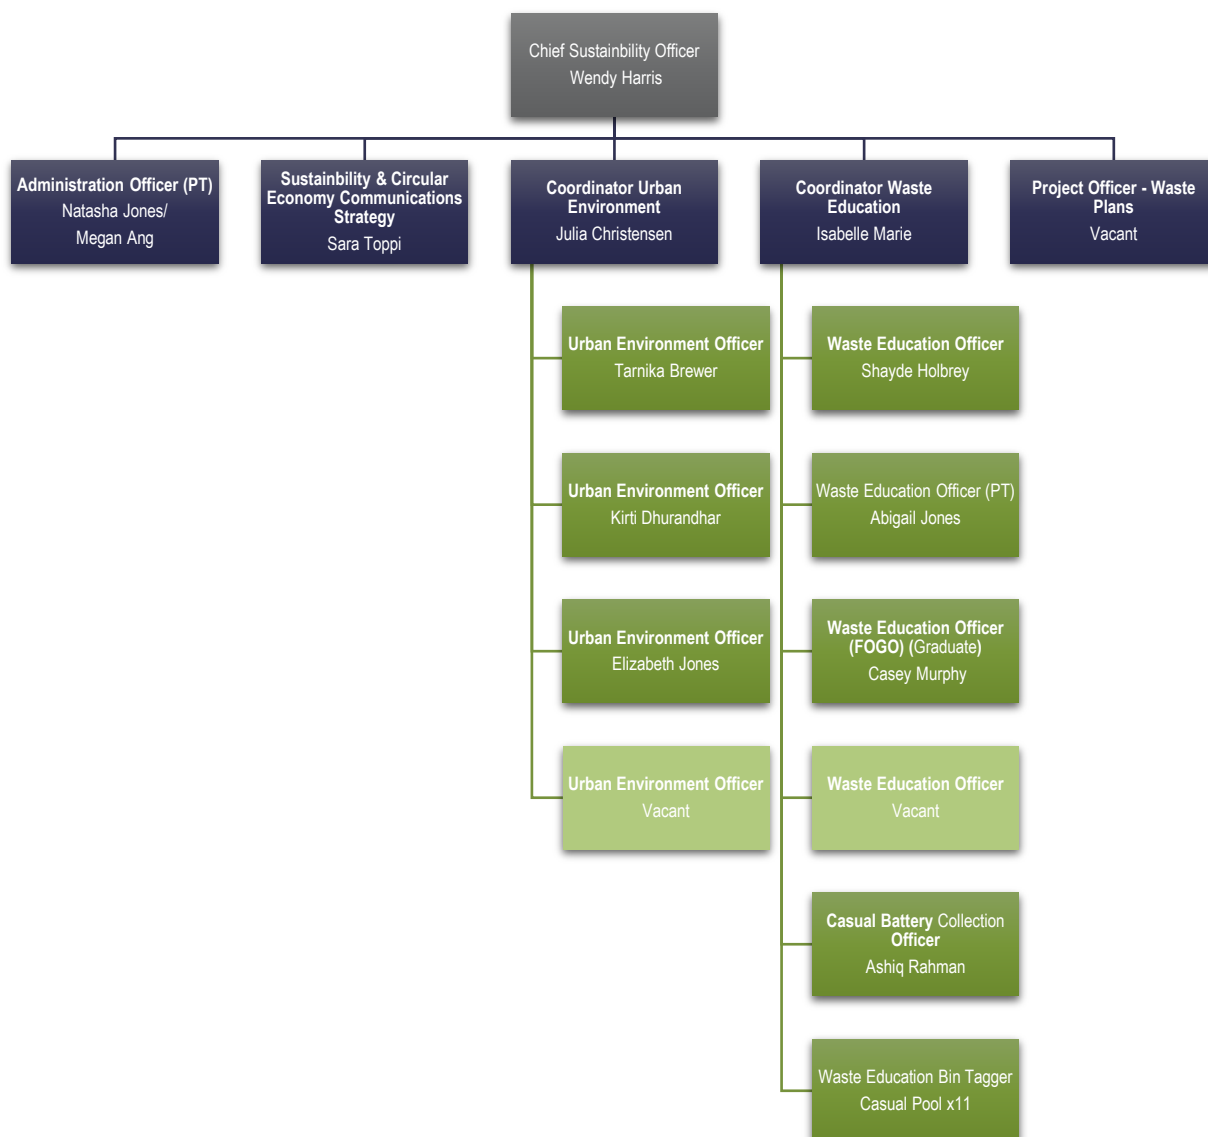

Figure 1: Sustainability Team organisational structure 2021.

1.2 Strategic Context

The Sustainability Team work to deliver the objectives within the draft EMRC Sustainability Strategy. The draft Strategy is aligned with the UN Sustainable Development Goals (SDG's) and the EMRC's 10 Year Strategic Plan 2017-2027 objectives. These objectives are embedded in the annual EMRC Corporate Business Plan, with associated delivery costs included in the annual budget. Alignment of these strategic documents with the SDG's enables the EMRC and its member Councils to collaboratively progress regional sustainability against a globally recognised framework.

Additionally, the Waste Education Services Team is guided by the objectives of the WA Waste Avoidance and Resource Recovery (WARR) Strategy 2030. The Strategy's vision is that *'Western Australia will become a sustainable, low-waste, circular economy in which human health and the environment are protected from the impacts of waste'*. The Strategy directly aligns with the Waste Education Services team and the EMRC's sustainability strategy vision to deliver circularity initiatives via education for the Region and broader community.

1.1.1 EMRC Draft Sustainability Strategy

⇒ Our Sustainability Vision

- ⇒ Promoting sustainable waste management and a transition to a circular economy

⇒ Objectives

- ⇒ Demonstrate circular economy leadership
- ⇒ Respond to a climate emergency
- ⇒ Reduce our environmental impact
- ⇒ Create value in the community

1.2 Reporting

The Sustainability Team report program progress via the EMRC Corporate Business Plan quarterly reports and quarterly Sustainability Team activity report to Council.

As of 2022/2023, the Urban Environment Team will be offering a new service to member Councils to provide a Sustainable Development Goals Annual Report Card (further information below).

Figure 2: Sustainability Team program overview aligned with the EMRC Corporate Business Plan objectives and the Sustainable Development Goals.

2 Funding Summary

To achieve sustainability outcomes and align with the EMRC Strategic Review and the new Sustainability Strategy, programs and projects are grouped in a way to allow more flexibility for participation and ensure ongoing value for each Council, while acknowledging the varying needs of member Councils.

Where possible, the EMRC aims to tailor services to the individual needs of member Councils, either through an ongoing program or as a fee for service project. A bespoke package can be negotiated and costed accordingly.

2.2 Urban Sustainability Assessment Programs

Urban Sustainability Assessment Programs provide a service that enables member councils to identify progress and opportunities to move towards the optimization of their facilities and achieving net zero.

2.2.1 Achieving Carbon Emission Reduction (ACER) Program

The ACER program is a long-standing initiative that commenced in 2009 and has continued to evolve to meet the needs of member Councils. The ACER program is governed by a carbon management framework that includes a cyclical process to monitor, review and improve. The ACER Program includes the following actions.

2.2.3 Benchmarking Building Efficiency (BBE)

Participating member Councils identified knowledge gaps in terms of cost benefit analysis of energy efficiency initiatives, assessing building performance, and identifying and understanding key performance indicators for different facility types. The two-year BBE project, completed in 2021, provided comparable benchmarks for buildings with similar functions and recommendations for energy efficiency initiatives, retrofits and investments. The BBE project's outputs support participating councils to seek funding and continue implementing energy efficiency initiatives with individual facility and regional-scale building energy information.

- ⇒ Funding – The EMRC has applied for funding for energy efficiency facility upgrade and LED lighting retrofit, which, if successful, will enable greater efficiencies to be achieved.
- ⇒ Project Support – EMRC can assist or lead projects locally and regionally. Depending on Councils' needs, projects may include community awareness and education campaigns, business case preparation, updating policies and procedures, and facilitating a sustainability service providers expo.

2.2.4 Sustainable Development Goals Annual Review

The United Nations Sustainable Development (SDG's) are an internationally recognized set of 17 targets that provide a globally unified approach to ensuring a sustainable future. Under each goal is a set of specified targets that have been identified as key attributes of sustainable development.

An SDG Annual Report card will provide an in-depth investigation into member Councils progress and opportunities in relation to these international standards.

2.4.3 Waste Plans

Western Australia's Waste Avoidance and Resource Recovery (WARR) Strategy 2030 is the second strategy to be developed under the WARR Act 2007. The Strategy was released in 2019 after extensive community consultation and has three objectives:

- ⇒ avoid the generation of waste;
- ⇒ recover more value and resources from waste; and
- ⇒ protect the environment by managing waste responsibly.

The Strategy includes an action to "*Implement local government waste plans, which align local government waste planning processes with the Waste and Resource Recovery Strategy 2030*".

Under section 3(1) of the WARR Act the definition of local government includes "*a regional local government established for the purpose of providing waste services*".

Apart from being legislation, developing waste plans gives local and regional governments the opportunity to map their current waste management performance in relation to the new Waste Strategy targets, and identify and implement the strategies needed to achieve these targets.

The EMRC has experience developing and reviewing waste plans, with the EMRC's and member Councils plans receiving DWER endorsement. EMRC is currently supporting a rural local government to develop their Waste Plan.

5.5 EMRC ANNUAL REPORT 2020/2021 D2021/21923

PURPOSE OF REPORT

The purpose of this report is to present the EMRC's draft Annual Report 2020/2021 to Council for acceptance.

KEY POINT(S)

- It is a requirement of section 5.53 of the *Local Government Act 1995* (the Act) that an annual report is prepared for each financial year.
- Section 5.54 of the Act requires the annual report to be accepted by Council, with an absolute majority, no later than 31 December after that financial year.
- Section 5.55 of the Act states that, "*The CEO is to give local public notice of the availability of the annual report as soon as practicable after the report has been accepted by the local government*".

RECOMMENDATION(S)

That:

1. Council, by absolute majority, in accordance with section 5.54 of the *Local Government Act 1995*, accepts the draft EMRC Annual Report 2020/2021 and the statements therein forming the attachment to this report.
2. Local public notice be given, in accordance with section 5.55 of the *Local Government Act 1995*, of the availability of EMRC's Annual Report 2020/2021.

REPORT

- 4 The EMRC's Annual Report 2020/2021 is presented in accordance with the provisions of the Act and addresses all the required contents.
- 5 As a result of the OAG taking responsibility for the financial audits since the 2017/2018 Annual Report, the Annual Report includes the full audited Financial Report instead of the Concise Financial Report and is consistent with the approach taken by the OAG with State Government departments and agencies.
- 6 Similar to previous years, it is proposed that the Annual Report be distributed in predominantly e-book format. A database of key stakeholders has been compiled to allow a mail-out to be conducted following approval and production of the Annual Report. The annual report e-book will also be available on EMRC's corporate website (www.emrc.org.au).
- 7 Availability of the Annual Report will be advertised through a local government notice in The West Australian newspaper and public notices sent to all member Council libraries for public display.

5.6 DELEGATION OF AUTHORITY FOR THE CEO

D2021/21926

PURPOSE OF REPORT

The purpose of this report is to extend the delegation of authority to authorise the CEO to accept contracts not subject to the tender process up to the value of \$400,000 plus GST, subject to the requirements of the *Local Government (Function and General) Regulations 1996*.

KEY POINT(S)

- To extend delegation number C5/2016 increasing the authority limit of the CEO to accept contracts resulting from a request for quote to \$400,000 plus GST to bring it in line with the current CEO authority limit to accept tenders to \$400,000 plus GST.
- To promote efficient administration of Council matters it is proposed to formalise the CEO's authority to allow an authorisation limit of up to \$400,000 plus GST for contracts that are not subject to the tender process.

RECOMMENDATION(S)

That Council by absolute majority in accordance with section 5.45 of the *Local Government Act 1995*, delegates authority to the Chief Executive Officer to accept contracts not relating to a tender up to \$400,000 excluding GST and subject to the requirements of the *Local Government (Functions and General) Regulations 1996*.

SOURCE OF REPORT

Chief Executive Officer

BACKGROUND

- 1 Council has currently delegated authority for the CEO to accept tenders up to \$400,000 excluding GST.
- 2 On 24 March 2016 Council resolved:
 3. *BY ABSOLUTE MAJORITY IN ACCORDANCE WITH SECTION 5.45 OF THE LOCAL GOVERNMENT ACT 1995, AMENDS DELEGATION C1/2014 INCREASING THE AUTHORITY LIMIT OF THE CHIEF EXECUTIVE OFFICER TO ACCEPT TENDERS TO \$400,000 EXCLUDING GST.*

REPORT

- 3 The CEO currently does not have the delegated power to authorise purchases over \$250,000 without the requirement to go to tender.
- 4 Regulation 11(2) of the *Local Government (Functions and General) Regulations 1996* (the Regulations) specify a list of exemptions for when tenders do not have to be publicly invited and a request for quote may be issued instead. For example, if the supply of goods and services is to be obtained through the WALGA Preferred Supplier Program or the goods or services are to be procured through the Federal, State or Local governments, among other exemptions.
- 5 As the above delegation applies to tenders only, currently all requests for quote, without the requirement to go to tender, resulting in contracts over the limit of \$250,000 (excluding GST) are also required to be approved by Council.
- 6 The CEO's current authorisation limit delegation only extends up to \$250,000 (excluding GST) for contracts which have not undergone the tender process.

- 7 The EMRC is in the process of finalising the purchase of a 20 tonne wheel loader (\$395,000 ex GST) and a 23.5 tonne excavator (\$333,079.04) for the Hazelmere Resource Recovery Park. Both purchases were procured separately under an exemption from the Regulations i.e. through the WALGA Preferred Supplier Program as the purchase amounts for each machine are above the tender threshold of \$250,000 (excluding GST) under the *Local Government Act 1995*. The capital expenditure is allowed for under the annual budget approved by Council.
- 8 Due to the current operating climate in Western Australia, there are significant demands for various capital items. Reducing the time for Council approval for what is a budgeted operational decision will improve such efficiencies.
- 9 As the current CEO delegation of up to \$400,000 (excluding GST) applies to tenders only, all other purchases above \$250,000 (excluding GST) done via a request for quote and meeting one of the tendering exemptions under the Regulations such as the above examples, would need to be approved by Council before the award of the contract.
- 10 Under section 5.42(1) of the *Local Government Act 1995* a local government may delegate (by absolute majority) to the CEO the exercise of any of its powers or the discharge of any of its duties, other than those referred to in section 5.43 of the *Local Government Act 1995* or sections 214(2), (3) or (5) of the *Planning and Development Act 2005*.
- 11 Therefore, by delegating authority to the CEO to accept contracts not relating to a tender of up to \$400,000 excluding GST will assist and support Council having to not deal with lower value contracts, allowing Council to focus on the more strategic and higher value procurement decisions.

5.7 JOURNEY TOWARDS NET ZERO

D2021/22011

PURPOSE OF REPORT

The purpose of this report is to provide Council with an update on the EMRC's journey towards net zero and seek Council's approval to provide written acceptance to the WALGA Power Purchase Agreement offer.

KEY POINT(S)

- The EMRC is embarking on a target of achieving Net Zero;
- A key pillar to achieving this is to utilise 100% renewable energy in EMRC operations;
- Signing up to the WALGA Power Purchase Agreement (PPA) by 26 November 2021 will contribute to achieving this target; and
- Council endorsement is sought for the EMRC to provide written acceptance of the WALGA PPA offer.

RECOMMENDATION(S)

That Council:

1. Supports the EMRC in its drive to achieve Net Zero by utilising 100% renewable energy; and
2. Authorises the CEO to provide written acceptance of the WALGA Power Purchase Agreement offer under Delegated Authority.

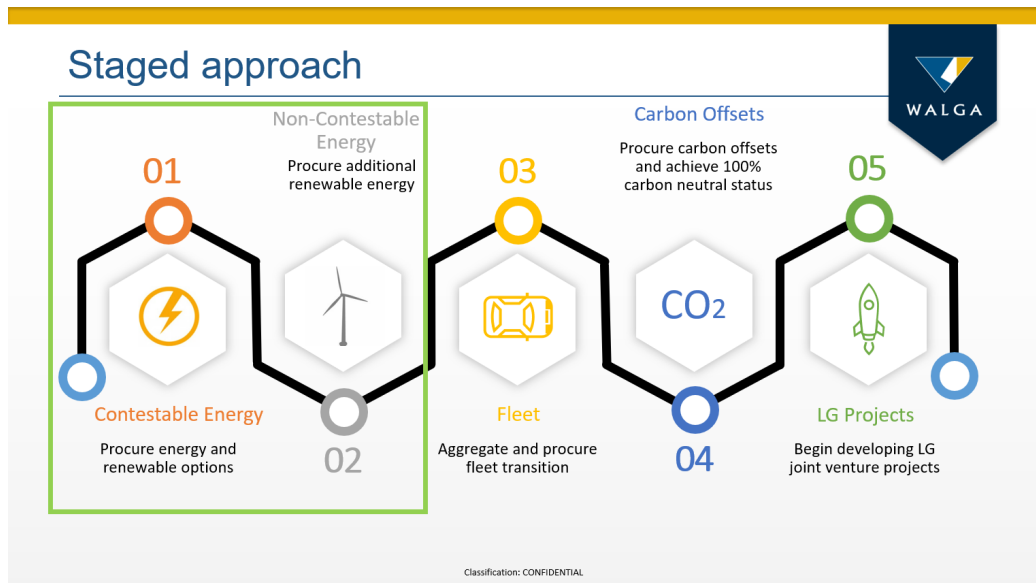

SOURCE OF REPORT

Chief Executive Officer

BACKGROUND

- 1 As an outcome of the EMRC's recent strategic review and the development of the new EMRC Sustainability Strategy, the EMRC is setting a target of Net Zero emissions by 2040. To achieve this target a suite of initiatives is required, including increasing energy efficiency of operations and switching to 100% renewable energy.
- 2 The WALGA Energy Sustainability and Renewables Project originated with a steering group of 11 local government representatives seeking a lower price for electricity via a collective Power Purchase Agreement (PPA). Over time the project evolved to align with local governments policy positions and strategic direction to ensure that the electricity was supplied by 100% local renewable sources.
- 3 Fifty-one local governments have already indicated a commitment to sign onto the PPA via a Memorandum of Understanding, including our member Councils. Member Council, the City of Bayswater, is a founding member of the original steering group set up by WALGA.
- 4 To enable the formation of a joint renewable energy purchasing group, WALGA sought authorisation from the Australian Competition & Consumer Commission (ACCC). On the 26 August 2021 the ACCC granted authorisation for 15 years, until 30 September 2036.

- 5 Contestable Electricity Supply for WA Member Local Governments (the PPA) is Stage 1 of WALGA's Energy Sustainability and Renewables Project, to be followed by projects for Non-Contestable Supply, Fleet, Carbon Offsets, and Local Government Joint Venture Projects. The three key objectives of the project include:
- Enhance access to and development of renewable energy for Western Australian Local Government thereby driving positive climate change outcomes;
 - Diversify supply options and application of new technology; and
 - Leverage the best price outcomes for Local Government supply.

REPORT

- 6 Synergy have been awarded the contract for supply of energy, renewables and integrated projects of the WALGA Energy Sustainability and Renewables Project. WALGA estimates the Synergy product will deliver a collective saving of \$5 million a year and deliver the single largest reduction in carbon footprint for the Local Government Sector.

- 7 Synergy source their renewable energy supply from within the South West Interconnect System (SWIS) including the Emu Downs, Colgar and Albany wind farms (pictured below).

Renewable Message – Yes, for Streetlights too!

Synergy utilises a total of 3 accredited sites to source LGCs for Natural Power

Albany: Synergy's Albany wind farm, a joint venture with Bright Energy Investments, is an accredited energy supplier for the GreenPower program, with 18 wind turbines, with a maximum generating capacity of 35.4 MW of electricity. This wind farm sits 80m above the Southern Ocean. It's in such a prime location that there are only approximately 7 days a year where the wind is not strong enough to turn the turbines.

Colgar Wind Farm: A renewable power project located in the central wheatbelt area of Western Australia. The wind farm situated 25km south east of Merredin is built over a land envelope of 18,000 hectares. With 111 turbines, the wind farm has a total power production capacity of 222 megawatts (MW) and generates between 630-750 gigawatt hours (GWh) each year.

Emu Downs: Located 30 kilometres east of Cervantes and approximately 200 kilometres north of Perth, EDWF generates electricity from wind powered turbine technology. The wind farm has 48 turbines with a capacity to produce 80 megawatts of electricity at peak.

Classification: CONFIDENTIAL

- 8 Annually, as required by the National Greenhouse and Energy Reporting (NGER) Act 2007, the EMRC reports its Scope 1 and 2 emissions via the NGER Scheme. Scope 1 emissions is the direct combustion of fuels such as petrol and diesel in vehicles, machinery and generators, and Scope 2 emissions is the supply of energy that is generated off site (e.g. electricity supplied by Synergy). EMRC's total Scope 2 emissions in 2020/2021 was 769 t CO₂-e. Scope 2 emissions were 73% of total emissions at Ascot Place and 62% at Hazelmere.
- 9 All three EMRC facilities, Ascot Place, Hazelmere Resource Recovery and the Red Hill Waste Management Facility have contestable electricity supply so can be included in the WALGA PPA initiative. Switching to 100% renewables for electricity supply will reduce EMRC's Scope 2 emissions to zero and total annual emissions by approximately 770 t CO₂-e per year.
- 10 The PPA commences 1 April 2022. As EMRC's current electricity contract ends 30 November 2022, EMRC plan to join the PPA from 1 December 2022 which will be 4 months of year one. Compared to the EMRC's current electricity contract, the estimated savings for the PPA for 100% renewables for year one (4 months only) is up to \$4,436, year two is up to \$17,986, and up to \$22,313 in the third year. Optimum savings will occur when the EMRC manages its energy demand at peak times. Due to the nature of EMRC's operations, peak load high risk times are often after operations have shut down for the day or occur over the Christmas break. To ensure EMRC can manage peak load effectively when and if required, an internal process will be developed with WALGA's assistance.
- 11 In addition to the financial savings and emission reductions, the EMRC will be joining 51 local governments including four of its member Councils (with one to still to receive authorisation from its Council) in a historic agreement which will see a large proportion of the local government sector connected to the SWIS move to 100% renewable energy. The sector collectively reducing emissions and progressing towards Net Zero.
- 12 The offer has a strict validity period for acceptance and is contingent on the collective minimum scaled volume of 60 Gigawatt hours across a 3-year term. WALGA required participating local governments to accept the offer in writing by 18 November 2021, however the EMRC has advised that it will need an extension to 26 November 2021.
- 13 The EMRC also intends to be involved in Stage 4 of the Project, Offsets, where WALGA will potentially procure carbon offsets from EMRC. EMRC's offsets originate from the energy generation facilities Red Hill WMF including landfill gas and future FOGO gas.

STRATEGIC/POLICY IMPLICATIONS

- 14 Key Result Area 1 – Environmental Sustainability
 - 1.5 To contribute towards improved amenity, conservation and support of the natural environment and to address climate change
- 15 Key Result Area 3 – Good Governance
 - 3.2 To manage partnerships and relationships with stakeholders

FINANCIAL IMPLICATIONS

- 16 Utility costs are included in the EMRC's annual operating budgets.

SUSTAINABILITY IMPLICATIONS

- 17 The EMRC is striving to achieve Net Zero by 2040 or sooner and in so doing embraces circular economy and sustainability principles.

5.8 EMRC'S RECONCILIATION ACTION PLAN WORKING PARTY

D2021/22139

PURPOSE OF REPORT

The purpose of this report is to seek Council's approval to review and amend the composition and focus of the EMRC's Reconciliation Action Plan Working Party.

KEY POINT(S)

- Council at its meeting of 15 February 2018 resolved for a Reconciliation Action Plan (RAP) to be developed through a Working Party.
- Expressions of Interest were received from member Council Councillors to be on the Working Party.
- The first RAP Working Party meeting was held in May 2018.
- The EMRC's first RAP, the Reflect RAP, was endorsed by Council at its Ordinary Meeting of Council 18 October 2018 D2018/12194 (Report D2018/13614).
- The RAP Working Party has continued to meet on an 'as needs' basis.
- The draft of the second EMRC RAP, the Innovate RAP, has been developed and a draft submitted to Reconciliation Australia for its endorsement.
- Reconciliation Australia is unable to approve the draft EMRC Innovate RAP as it currently stands due to the composition of the EMRC's Reconciliation Action Plan (RAP) Working Party (noted in this report).

RECOMMENDATION(S)

That Council:

1. Acknowledges Reconciliation Australia's comments on the composition and focus of the EMRC's RAP Working Party.
2. Agrees to review and amend the current composition of the EMRC's Reconciliation Action Plan Working Party.
3. Acknowledges that any regional actions recommended by the RAP Working Party will be brought back to Council for its input and consideration.

SOURCE OF REPORT

Chief Sustainability Officer

BACKGROUND

- 1 Council, at its meeting of 15 February 2018, considered a Notice of Motion put forward by Cr Daw. Discussion ensued and Council resolved as follows:

“THAT:

1. *THE FIRST ITEM OF BUSINESS FOR COUNCIL MEETINGS BE AN ACKNOWLEDGEMENT OF COUNTRY TO ACKNOWLEDGE THE NOONGAR ABORIGINAL PEOPLE AS THE TRADITIONAL OWNERS OF THIS LAND.*
2. *THE ABORIGINAL FLAG BE PERMANENTLY RAISED AT THE EMRC ALONGSIDE THE AUSTRALIAN FLAG.*
3. *COUNCIL INVITES LOCAL NOONGAR ELDERS FROM THE WHADJUK WORKING PARTY TO CONDUCT A WELCOME TO COUNTRY CEREMONY AND ANY OTHER CULTURAL CEREMONY REQUIRED TO MARK THE INSTALLATION OF THE ABORIGINAL FLAG.*
4. *THAT THE EMRC DEVELOPS A RECONCILIATION ACTION PLAN THROUGH A WORKING PARTY CONSISTING OF COUNCILLORS AND STAFF.*

CARRIED UNANIMOUSLY”

- 2 Expressions of Interest were called for EMRC Councillors to become part of the EMRC’s Reconciliation Action Plan (RAP) Working Party and five Councillors expressed an interest. Councillor Daw was elected Chairman of the RAP Working Party at the inaugural meeting, held on 17 May 2018 and work commenced on developing the EMRC’s first RAP, being the ‘Reflect’ RAP. Changes were made to the composition of the Working Party after the October 2019 Council elections, however Councillor Daw remained the Chairman.

- 3 Council, at its meeting of 22 October 2018, resolved as follows (D2018/12559):

“THAT COUNCIL:

1. *ENDORSES THE DRAFT ‘REFLECT’ RECONCILIATION ACTION PLAN 2018-2019, FORMING THE ATTACHMENT TO THIS REPORT, FOR THE PURPOSE OF SUBMITTING TO RECONCILIATION AUSTRALIA FOR ITS INITIAL REVIEW AND FEEDBACK; AND*
2. *SUPPORTS THE CULTURAL AWARENESS TRAINING FOR EMRC COUNCILLORS AND STAFF AS OUTLINED IN THE REPORT.*

CARRIED UNANIMOUSLY”

- 4 The draft EMRC ‘Reflect’ Reconciliation Action Plan (RAP) was subsequently endorsed by Reconciliation Australia and remained the current RAP until work commenced on the development of the Innovate RAP.

REPORT

- 5 The existing members of the RAP Working Party (as at 15 October 2021) comprised:

- Cr John Daw (Chairman)
- Cr Jai Wilson
- Cr Lesley Boyd
- Cr Georgia Johnson
- Cr Mel Congerton
- Cr Doug Jeans

- 6 The EMRC RAP Working Party has continued to meet on an 'as needs' basis, and a second RAP, the draft Innovate RAP, was prepared by EMRC staff and the RAP Working Party and submitted to Reconciliation Australia (RA) for initial endorsement, prior to submitting it to the EMRC Council.
- 7 Unfortunately, RA has advised that it is unable to endorse the EMRC's Innovate RAP as it has no Aboriginal or Torres Strait Island representation on the Working Party. As a result of this advice EMRC held a Zoom meeting with RA to talk through the issues, which were then summarised in an email from RA to the EMRC as follows:
- 8 *"As discussed it is a requirement to have First Nations voices and perspectives underpinning the development/implementation of RAPs.*
- 9 *It is wonderful to hear that Council has strong leadership in the reconciliation space, with Councillors championing the RAP. That being said, it is important to note that the initial objective of RAP is to focus on workplace culture. The first phase of an organisation's RAP journey is to create a culturally safe workplace, through educating non-Indigenous staff and ensuring that Aboriginal and Torres Strait Islanders people and cultures are respected and considered in organisational decision making. As progress is made in this area, then organisations start to take their learnings to change how they operate and influence their external stakeholders.*
- 10 *As the RAP primarily focuses on workplace operations, I would recommend that an employee based working group is established, to ensure that the RAP has a strong internal focus."*
- 11 Having considered the comments received from RA and in thinking through the actions in the draft Innovate RAP, it is the view of staff that the existing RAP Working Party is more relative to EMRC staff as opposed to the Council and that thought should be given to dissolving the existing Working Party and replace it with an EMRC staff RAP Advisory Group with any actions of a regional nature to be highlighted and brought back to Council for its input and consideration.

STRATEGIC/POLICY IMPLICATIONS

- 12 Key Result Area 2 - Economic Development
2.3 To facilitate regional cultural and recreational activities
- 13 Key Result Area 3 - Good Governance
3.2 To manage partnerships and relationships with stakeholders

FINANCIAL IMPLICATIONS

- 14 The costs associated with the EMRC's RAP are included in the EMRC's annual operating budget.

SUSTAINABILITY IMPLICATIONS

- 15 The EMRC operates to pursue environmental, economic and social outcomes for Perth's Eastern Region.

The Eastern Metropolitan Regional Council's (EMRC) Sustainability Strategy has been developed to ensure that programs and services are being delivered in alignment with the strategic priorities of EMRC's key stakeholders.

The newly adopted Sustainability Strategy is used to drive operational activities and is aligned to our priorities throughout the EMRC.

Council endorsed the EMRC Strategic Review in June 2021. This review was built on multi-stage stakeholder engagement and an understanding of the evolving waste management market in Western Australia. The Strategic Review undertaken in 2020/2021 identifies the overarching vision and goals that the EMRC Council aspires to achieve.

Sustainability is a core pillar in the EMRC's operation and through this strategy, we will continue to move forward as a leader in community change and action.

Marcus Geisler
Chief Executive Officer

Introduction

The Eastern Metropolitan Regional Council (EMRC) is a forward thinking regional local government representing the interests of five-member Councils in Perth’s Eastern Region.

Incorporated under the Local Government Act 1995, we provide strength in our partnerships with the Town of Bassendean, City of Bayswater, City of Kalamunda, City of Swan, and Shire of Mundaring to build a sustainable community for current and future generations.

- We are committed to being a leader in sustainability by:
- Defining a Sustainability Strategy, which drives forward thinking throughout Perth’s Eastern Region
 - Incorporating our sustainability vision and goals into our foundations
 - Establishing realistic targets to meet local, state, national and international sustainability objectives

This Sustainability Strategy will allow us to meet the needs of our Member Councils while providing sustainable solutions for future generations.

Strategic alignment

Our Sustainability strategy has been drafted in alignment with our strategic review, local, state, national and international drivers.

The EMRC Strategic Review

We conducted a strategic review which was endorsed by council, August 2021. The strategy identified that it should “focus on delivering waste, resource recovery and sustainability services, capitalising on its existing capabilities and infrastructure to act as an industry leader in resource recovery”.

The objective of the strategic review is to leverage off our current operational capacity to deliver valuable services to member councils, their communities, and the Eastern Metropolitan region by:

- Delivering industry leadership focusing on resource recovery aspects of a circular economy through physical infrastructure and support services
- Participation in industrial programs to create a symbiosis between waste and material streams regionally and optimise resource recovery
- Providing shared services for member councils in urban environmental management, and waste education
- Achieving net zero carbon by 2040 (e.g., renewable alternatives at waste processing facilities)

National and state drivers

Historically, cheap fossil fuels, low-cost landfill, a perceived abundance of space, and a commercial sector that has often lobbied against sustainability focussed legislation, has influenced the development of the waste management landscape. This has led to unsustainable waste management, both locally and nationally, with significant tonnages of waste landfilled and limited resource recovery initiatives when compared with other regions.

With a shift in national and state policy, we have created this Sustainability Strategy to respond to this shift. The key national and state drivers integrated into the strategy are:

- **Western Australian Climate Policy** – Our Sustainability Strategy embraces the state objective of enhancing climate resilience and transitioning to low carbon emissions. We are contributing to these overall objectives through initiatives in building a resilient Eastern Metropolitan region, reducing our carbon emissions and providing circular solutions for government leadership initiatives.
- **Waste Avoidance and Resource Recovery Strategy 2030** – Through our waste management and resource recovery services, we are well positioned to drive the change required to support the achievement of each strategic target outlined in the strategy. Our detailed action plan will provide the mechanisms to avoid, recover and protect through environmentally focused waste management solutions and circular economy leadership
- **2018 National Waste Policy** – Similar to Western Australia’s Waste strategy, this policy focuses on circular economy initiatives such as supporting investment in infrastructure, circular economy-related innovation, market development, behavioral change programs and physical waste recovery/recycling facilities. Our Sustainability Strategy has circular economy initiatives at the core of future decision making to drive change from the ground up. Each of our objectives have integrated circular economy-based principles and are supported by our detailed action plan.

Other national and state policies considered during the formation of this Sustainability Strategy include:

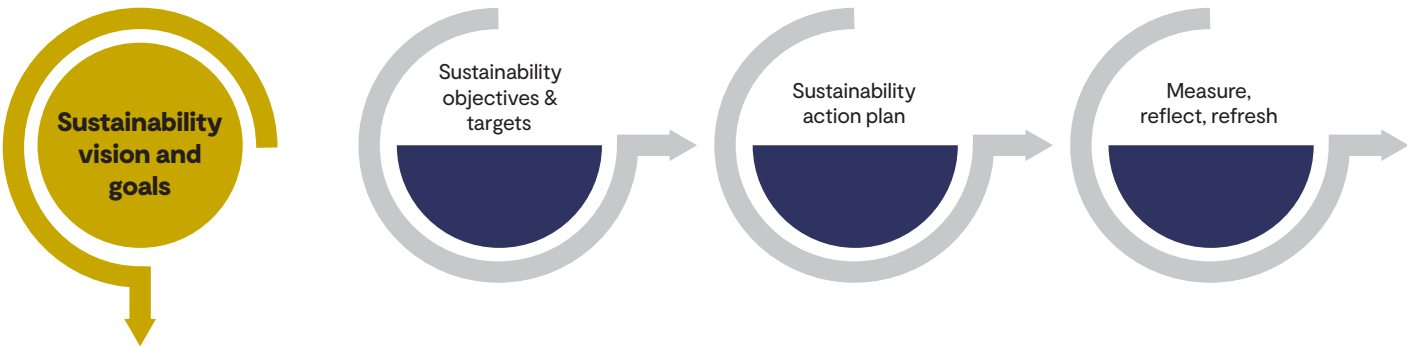

- Waste Avoidance and Resource Recovery Strategy Action Plan 2030 (WA)
- National Waste Policy Action Plan (2019)
- Action Plan for Sustainable Procurement (2020)
- Australian Government Waste and Recycling Reduction Bill (2020)
- COAG Waste Export Ban (2020)
- CSIRO National Circular Economy Roadmap for plastics, glass, paper and tyres (2021)
- National Plastics Plan (2021)
- National Soil Strategy Australia (2021)
- CSIRO - Circular Economy: a CSIRO roadmap to unlock future growth opportunities

United Nations Sustainable Development Goals

The United Nations Sustainable Development Goals (SDGs) provide an international framework for consideration of sustainability matters. This international standard is agreed to and endorsed by the Australian Government, with numerous examples of the SDGs being applied to national and state strategies. Accordingly, we have aligned aspects of our Sustainability Strategy with the SDGs where possible.

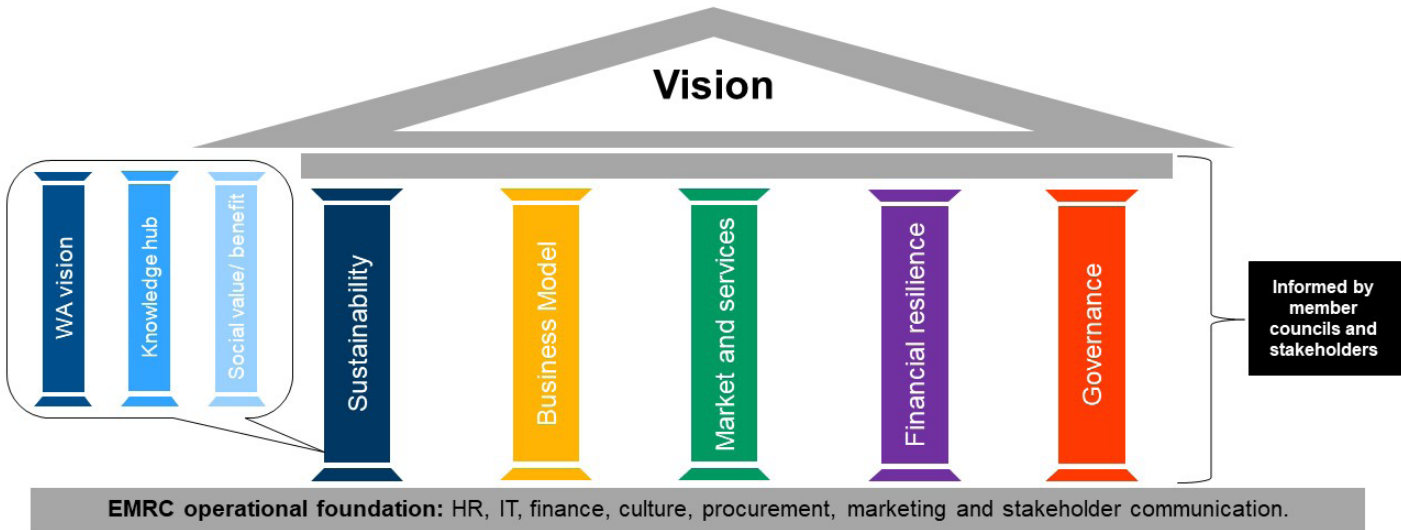

Our sustainability vision

In 2020/2021 we undertook an organisational strategic review, which addressed forecasted significant changes in the waste management market and sought to realign our core business operations. This review identified five strategic pillars that are intertwined with our operational foundations. Our Sustainability Strategy directly links with the outcomes of this strategic review, focusing on the first pillar, sustainability:

Our Strategic Vision

The EMRC focuses on delivering waste, resource recovery and sustainability services, capitalising on its existing capabilities and infrastructure to act as an industry leader.

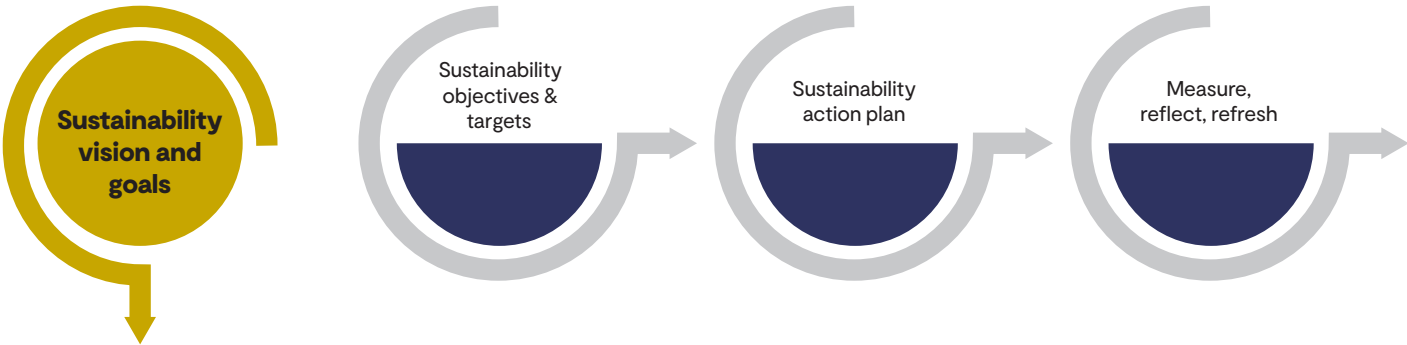

Our Sustainability Vision

“Promoting sustainable waste management and a transition to a circular economy”

Our sustainability goals

To support our sustainability vision, four goals have been identified by reviewing previous organisational sustainability activities and to align with the goals set out in the Strategic Review. These goals will be used to develop specific objectives and targets for measurement of performance moving forward.

Demonstrate circular economy leadership:

The EMRC will use their experience to provide circular based resource recovery solutions for Perth's Eastern Region and act as a knowledge hub for waste avoidance strategies.

Respond to a climate emergency:

The EMRC will reduce their carbon impact to achieve net zero and understand the risks associated with climate change to Perth's Eastern Region

Reduce our environmental impact:

The EMRC will lead by example by reducing our environmental impact through efficient operations, forward thinking, and supporting circular initiatives

Create value in the community:

The EMRC will establish and support projects in the community that create social value from a residential level through to commercial level.

Our objectives and targets

Through a workshop with key internal leaders and stakeholders, five areas of influence were identified as being in alignment with the United Nations Sustainable Development Goals (SDGs). These areas of influence were chosen with representation from each of the four business groups and all five members of the executive leadership team.

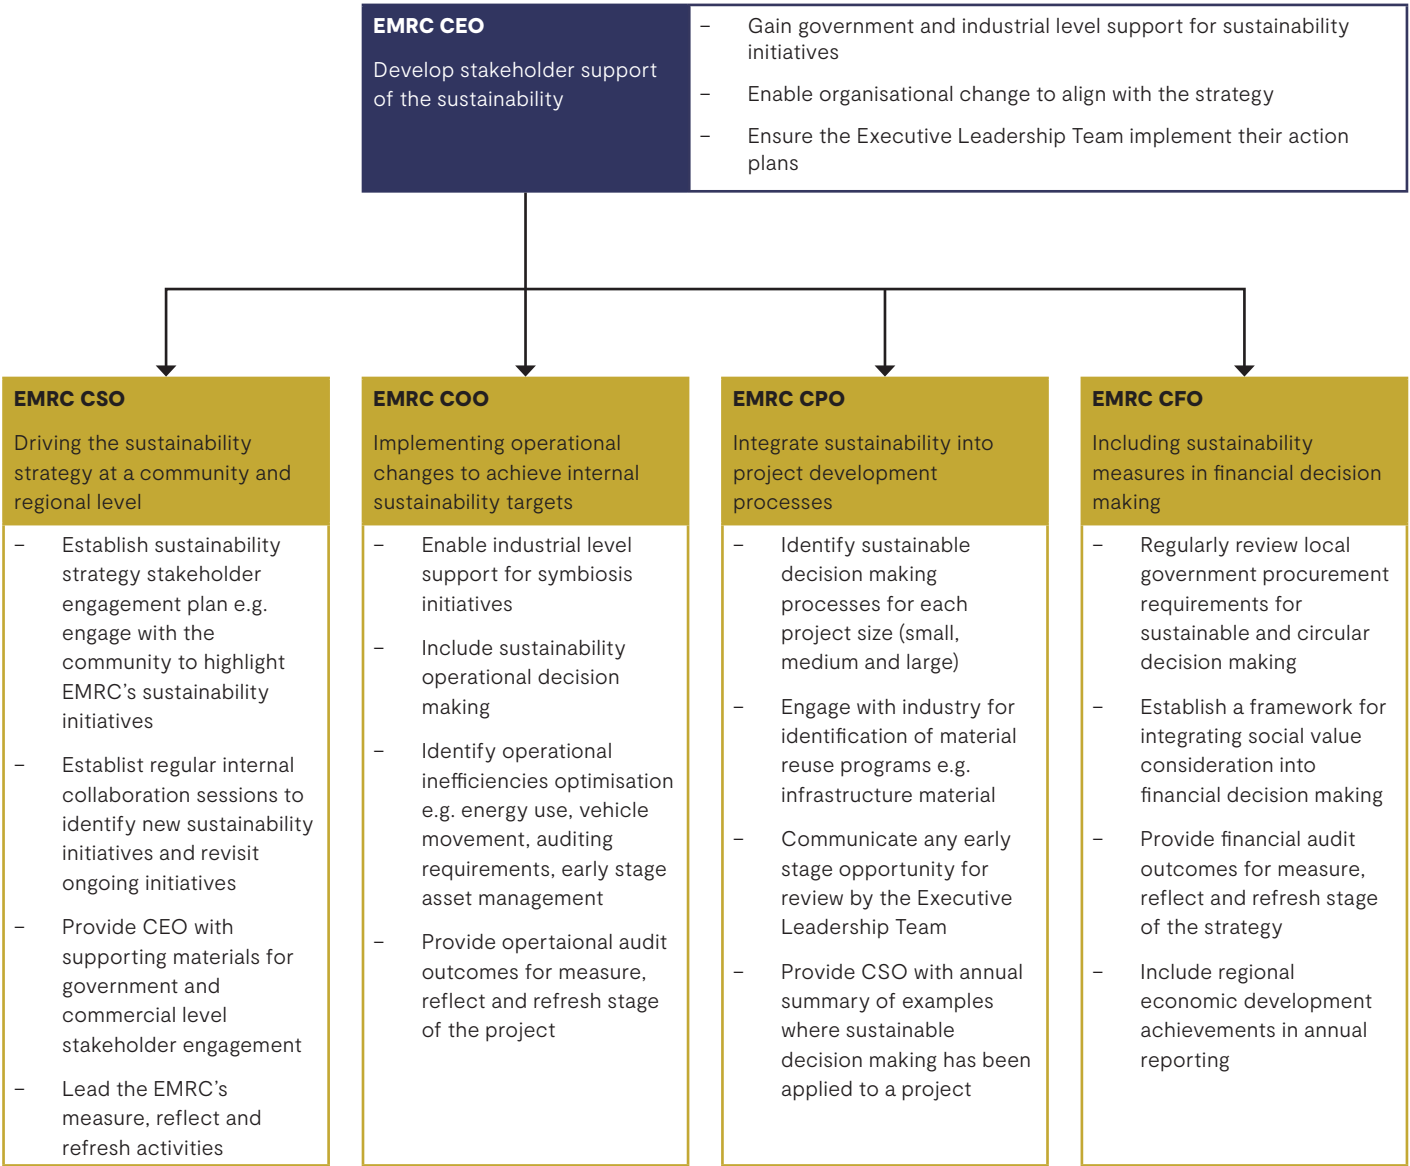

To support our four goals and leverage off these areas of influence, twelve sustainability targets have been identified as shown by our circular sustainability model:

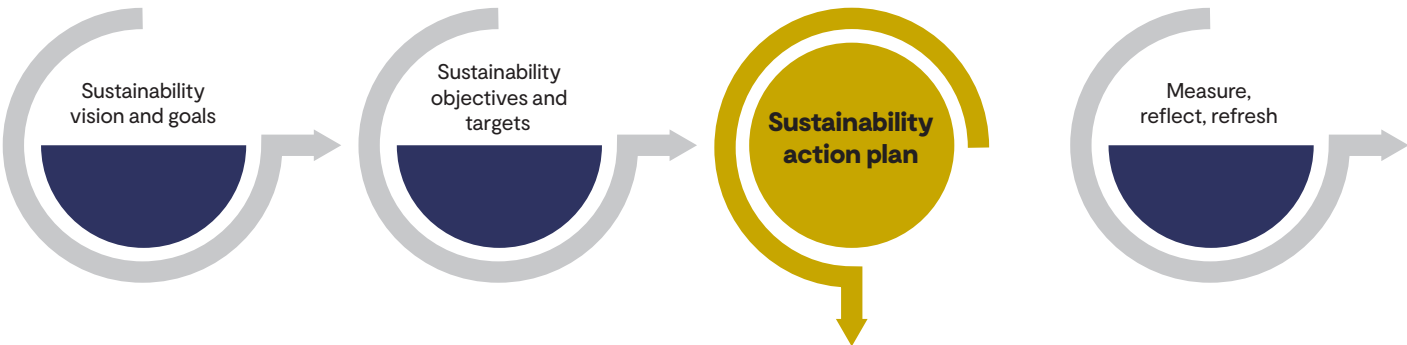

Executive Leadership Team Sustainability Key Objectives

Sustainability initiatives will be integrated across the each of our five teams: CEO; operations; projects; business; and sustainability. The Executive Leadership Team have our own objectives dependant on our operational function and delivery services. Each of these objectives will be achieved through a business group specific action plan dependant on our operational function and delivery projects:

Our sustainability action plan

For our team to achieve each of the objectives and targets listed, a detailed action plan has been established with responsibilities being allocated to each of the Executive Leadership Team members for delegation where appropriate. This detailed action plan was aligned with our strategic risk register and prioritised as follows:

- Low – will assist in progressing towards the Sustainability Strategy goals and objectives but is not a core requirement
- Medium – important action to achieve high priority actions or will provide direct support in achieving sustainability goals
- High – required to achieve sustainability goals and objectives or interdependent to achieve other actions listed

Each of the high priority actions have been summarised below

Demonstrate circular economy leadership:

- Map the our stakeholders and areas of influence and impact to develop a targeted engagement plan
- Create an industry engagement plan to establish support for symbiosis initiatives including regional transport and economic development plans
- Map an alignment strategy between each of our advocacy program and partnership for identification of future circular economy initiatives

Respond to a climate emergency:

- Map the our stakeholders and areas of influence and impact to develop a targeted engagement plan
- Create an industry engagement plan to establish support for symbiosis initiatives including regional transport and economic development plans
- Map an alignment strategy between each of our advocacy program and partnership for identification of future circular economy initiatives

Reduce our environmental impact:

- Define what “illegal waste disposal” means to the us i.e. on privately or publicly owned land, types of dumped materials
- Update compliance monitoring, reporting and review process integration with operations and project development

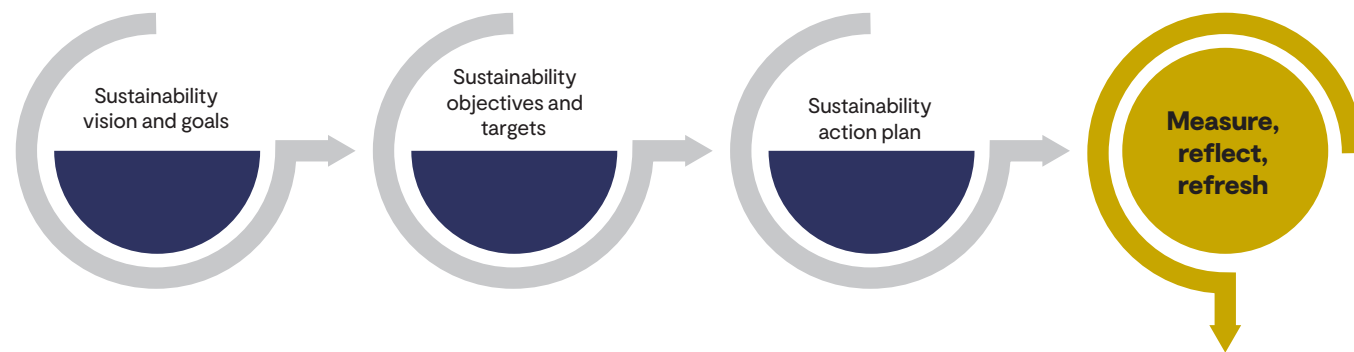

Create value in the community:

- Establish a Sustainability Strategy stakeholder engagement plan e.g. engage with the community to highlight in our sustainability initiatives
- Map a framework for integrating social value consideration into financial decision making
- Establish a community recycling and reuse network for exchange of products, reuse initiatives, repair cafes and identification of regional synergies

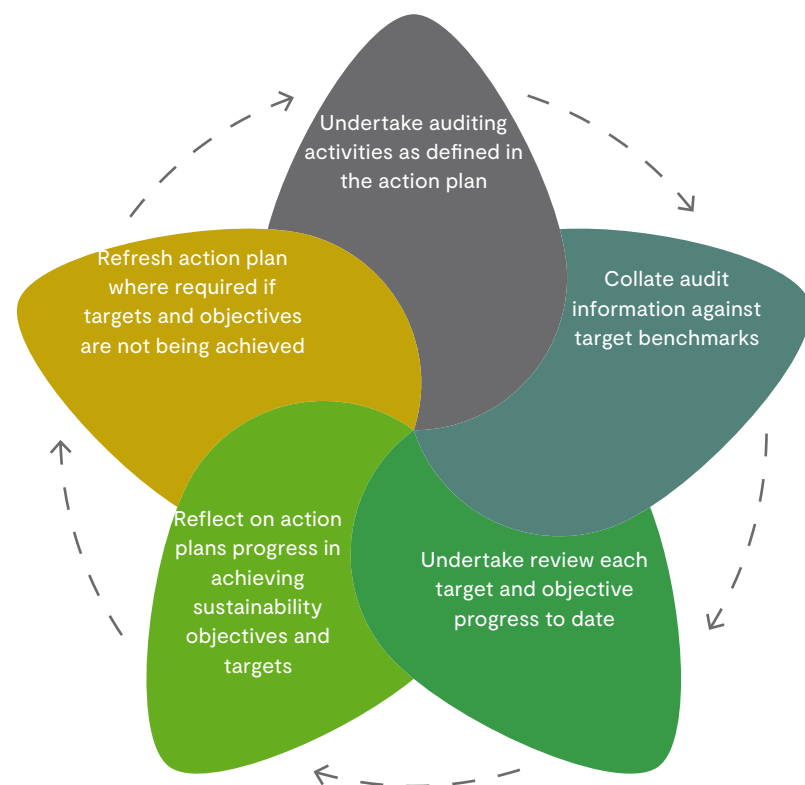

Our continuous improvement

Closing remarks

Our Sustainability Strategy requires regular review to establish if the objectives and targets are being met. To achieve this, each target requires a baseline to measure against such that we can reflect and refresh accordingly. The first stage of implementation will be to establish a baseline of measurement for each sustainability objective and target. This baseline should be reviewed quarterly in alignment with the Corporate Business Plan and the our Strategic Plan 2017–2027 alignment with the following process:

We are striving to *transform Perth's Eastern Region through sustainable waste management, behaviour change and circular economy leadership* with a detailed sustainability action plan and continual self-improvement process. At the EMRC, we value the importance of sustainable decision making and benefits of creating a Sustainability Strategy that is ambitious, yet achievable.

Our Sustainability Strategy can provide benefits such as:

- Reducing environmental impact and carbon footprint to address declarations of a climate emergency
- Increase competitiveness in the waste management market to drive circular economy-based initiatives
- Reducing risk and liabilities through future proofing the business for changes in the market
- Improving value to Member Councils and Perth's Eastern Region
- Improving company culture and work environment

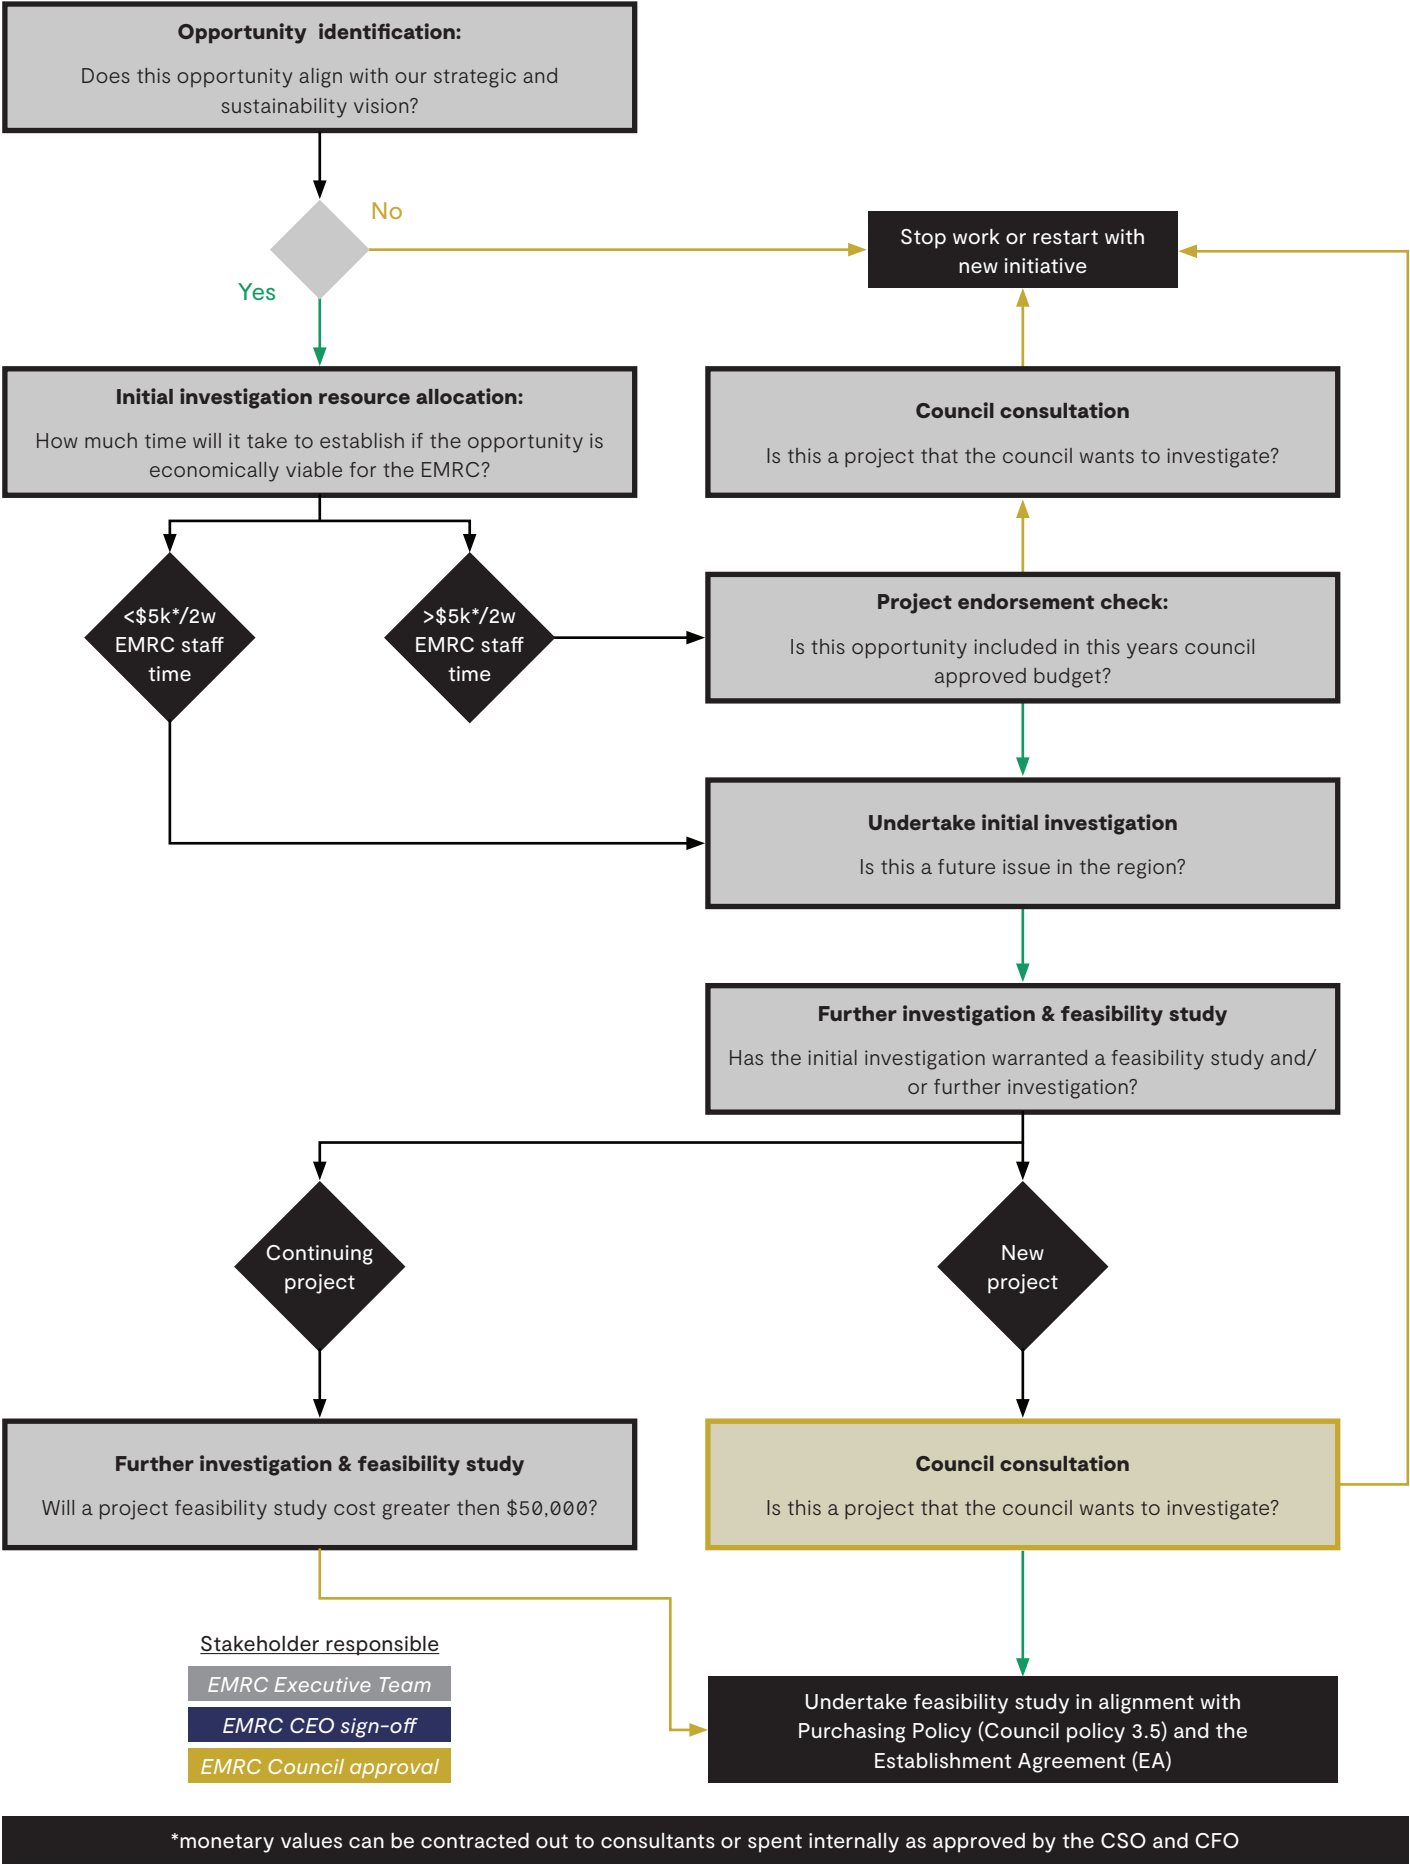

This sustainability strategy will allow the EMRC to meet the needs of region and sustainable solutions for future generations. So together let's,

***Think forward,
Act now!***

Materiality Assessment

At a local and regional government level, action planning to contribute to achieve each of the SDGs is restricted by their areas of influence and context. These areas of influence were identified through a sustainability framing workshop followed by a desktop materiality assessment of the our current programs and services.

A materiality assessment is an important stage in the development of a Sustainability Strategy as it assists in identifying priority areas and actionable activities.

The sustainability framing workshop was undertaken on Wednesday 22 September 2021 in our administration building in Belmont. The workshop was facilitated by an external consultant all members of the Executive Leadership Team and selected supporting staff in attendance. This allowed for representation of each of our business groups to identify the sustainability themes deemed most important to us.

The workshop was designed to create alignment between the business groups and work through any misconceptions associated with the role of sustainability in an organisation. This was achieved through the following process:

- **Introduction:** The workshop commenced with a discussion about sustainability drivers, national and international initiatives, and the importance of establishing a robust Sustainability Strategy to achieve the our strategic vision.
- **Divergent thinking exercise:** Each of the workshop participants then spent some time identifying personal and our specific sustainability themes before aligning them with each of the 17 SDGs. This process helped to highlight the range of motivating themes across the organisation and challenge the outcomes captured during the Strategic Review. It also created a visual representation of which of the UNSDG's are most important to the us as an organisation. The weighting and range of themes were then discussed at length to gain alignment between the workshop participants as to which areas we have the most influence.
- **Workshop relevance and industry alignment:** The facilitator then initiated a discussion around the our sustainability drivers, global goals and targets and best practice guidance for a local government association. Case studies such as the City of Melbourne were used to demonstrate what best practice alignment to the UNSDG's can look like and illustrated incorporation of the goals into our strategic planning.
- **Sustainable problem solving:** Workshop participants were split into three groups to explore WA's rapidly growing end of life solar panel disposal issue. Working separately, each group discussed the sustainability issue with respect to the opportunity the panels provides, how they could tap into the market, identifying any existing infrastructure they can utilise or adapt and establishing the best approach to minimising this issue in the future. The responses of each group fed into a group discussion to determine the viability of the proposed solutions. Following the discussion, case studies were presented to the group to illustrate technologies and processes adopted by organisations who are leaders in this area such as the ELSi Project in Europe and Lotus Energy in Melbourne.
- **Drivers and vision mapping:** A group discussion was facilitated to begin developing new sustainability goals and objectives. With our key areas of influence as reference, input from all workshop participants was used to reach a consensus regarding what key areas the we should focus on going forward. This included high level idea generation regarding operational barriers and risks associated with the implementation of each goal.

Following the workshop, each of the SDG's to identify goals that could be influenced by our operations and assess which areas are of material concern. The outcomes of the workshop themes identified and desktop materiality assessment Table 1 which identified the key priority areas for us going forward.

UNSDG and relevant targets	Workshop themes and discussion areas	Materiality assessment (by external consultant)
<p>Goal 1: End poverty in all its forms everywhere</p> <p>By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions.</p> <p>By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of 13 property, inheritance, natural resources, appropriate new technology and financial services, including micro-finance.</p>	No Notes	<p>Tertiary priority as there is no current ability for the EMRC to support or influence this SDG directly.</p> <p>The EMRC currently does not have any programs or initiatives that contribute directly to ending poverty, and as recognised in the workshop there were no driving factors or identification of this goal as an area of interest.</p>
<p>Goal 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture</p> <p>By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous peoples, family farmers, pastoralists and fishers, including through secure and equal access to land, other productive resources and inputs, knowledge, financial services, markets and opportunities for value addition and non-farm employment</p> <p>By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality</p>	<ul style="list-style-type: none"> No food waste Food for all 	<p>Tertiary priority as the EMRC currently does not have any programs or initiatives that contribute directly to Goal 2, and as recognised in the workshop there were limited driving factors or identification of this goal as an area of interest.</p> <p>However, the EMRC does indirectly contribute to Goal 2 through initiatives such as the FOGO program. FOGO provides a solution to food waste as and produces a natural fertiliser which reduces the use of organic fertilisers and therefore contributing to sustainable agriculture by promoting resilient agricultural practices and helping to maintain ecosystems.</p> <p>Additionally, the EMRC's wood chipping and mulching services also contribute to sustainable agriculture by improving land and soil quality to strengthen capacity for adaption to climate change.</p>
<p>Goal 3: Ensure healthy lives and promote well-being for all at all ages</p> <p>By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being</p> <p>By 2030, substantially reduce the number of deaths and illnesses from hazardous chemicals and air, water and soil pollution and contamination</p>	<ul style="list-style-type: none"> Community engagement 	<p>Tertiary consideration with no direct actions associated with this goal.</p> <p>The EMRC currently does not have any programs or initiatives that contribute directly to Goal 3, and as recognised in the workshop there were very limited driving factors or identification of this goal as an area of interest.</p> <p>However, through their landfill and waste processing services where the EMRC disposes and contains this waste and therefore reducing its presence in the environment and ultimately human interaction, the EMRC is indirectly contributing to Goal 4 by aligning with the target that states to reduce the number of deaths and illnesses from hazardous chemicals in the air, water and soil pollution and contamination.</p>

UNSDG and relevant targets	Workshop themes and discussion areas	Materiality assessment (by external consultant)
<p>Goal 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all</p> <p>By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship</p> <p>By 2030, ensure that all learners acquire the knowledge and skills needed to promote sustainable development, including, among others, through education for sustainable development and sustainable lifestyles, human rights, gender equality, promotion of a culture of peace and non-violence, global citizenship and appreciation of cultural diversity and of culture's contribution to sustainable development</p>	<ul style="list-style-type: none"> • Circular economy school programs • Sustainability communications programs 	<p>Secondary consideration with no direct actions associated with this goal.</p> <p>The EMRC currently does not have any programs or initiatives that contribute directly to Goal 4, and as recognised in the workshop there were limited driving factors or identification of this goal as a key area of interest. However, with a transition to a circular economy, EMRC will introduce new education and training initiatives to promote overall sustainable development.</p> <p>The EMRC will however contribute indirectly to this goal through the upskilling of their workforce required to implement new sustainability initiatives, and through the support of community behaviour change programs which will improve knowledge and skills pertaining to living a more sustainable lifestyle.</p>
<p>Goal 5: Achieve gender equality and empower all women and girls</p> <p>Ensure women's full and effective participation and equal opportunities for leadership at all levels of decision making in political, economic and public life</p>	<p>No Notes</p>	<p>This is a tertiary priority as there is no current ability for the EMRC to influence this UNSDG at a community level but there is potential to integrate this at an organisational level.</p> <p>The EMRC currently does not have any programs or initiatives that contribute directly to Goal 5, and as recognised in the workshop there were no driving factors or identification of this goal as an area of interest.</p>
<p>Goal 6: Ensure availability and sustainable management of water and sanitation for all</p> <p>By 2030, improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally</p> <p>Support and strengthen the participation of local communities in improving water and sanitation management</p>	<ul style="list-style-type: none"> • Providing safe and continuous drinking water • Preserve our waterways • Water conservation • Contaminated waste remediation & management 	<p>This is a secondary priority that will be supported through the 5 areas of influence.</p> <p>As recognised in the workshop, Goal 6 had multiple driving factors and was identified as a potential key area of interest. However, due to the more direct relationship between current EMRC programs and initiatives to other SDG's, Goal 6 has been identified as a secondary consideration that will be supported and contributed to through the 5 key areas of influence.</p> <p>Current programs and initiatives implemented by the EMRC that directly contribute to Goal 6 include: Water Sensitive Futures program (including Waterwise Council Accreditation)</p>

Corporate Business Plan 2021/2022 – 2025/2026 1st quarter Progress Report for the period, July to September 2021 (D2021/20081)

Corporate Business Plan 2021/2022 – 2025/2026

Progress Report – First Quarter 2021/2022

Introduction

The Eastern Metropolitan Regional Council's (EMRC) Integrated Planning Framework has been developed to ensure that programs and services are being delivered in alignment with the strategic priorities of EMRC's key stakeholders.

The 10 Year Strategic Plan 2017 to 2027 identifies the overarching outcomes that the EMRC Council aspires to achieve.

The newly adopted Corporate Business Plan 2021/2022 – 2025/20265 (Corporate Business Plan) is used to drive operational activities and is aligned to the priorities identified in the 10 Year Strategic Plan. These two comprise the EMRC's Plan for the Future. Strategic high-level plans guide development of actions which are prioritised during annual business planning workshops, and resourced through the annual budget.

Council adopted the latest EMRC's Corporate Business Plan in June 2021. The Corporate Business Plan is built on the foundation of three strategic Key Result Areas (KRA) identified within the 10 Year Strategic Plan 2017 to 2027. The Corporate Business Plan sets out the actions that staff will undertake to deliver on Council's strategic priorities.

Reports against the Corporate Business Plan provide Council with information on progress in relation to the achievement of projects and programs developed to achieve Council's vision "To be a responsive and innovative leader in assisting Perth's Eastern Region to be a great place to live, work, play and do business".

Updates against the Corporate Business Plan for the period July 2021 to June 2022 are provided quarterly within this document and are against the current adopted Plan.
