WHERE **CUTTING EDGE** MEETS SUSTAINABILITY
SAVE PRODUCTION COSTS BY **MULTI-TASKING**

ACCLAIMED VINEYARD MOWING & WEEDING SOLUTIONS FEATURING SEAMLESS INTER-ROW TO
UNDERVINE MOWING WITH HYDRAULIC FINE-SENSOR & EXPANDABLE DECK TECHNOLOGY

Specialising in Chemical Free Weed Control

GREEN, QUALITY, INNOVATIVE SOLUTIONS

Fischer Australis Pty Ltd

FISCHER AUSTRALIS Pty Ltd was established in 2007, inspired by the revealing results from a five-year 'clean and green' soil improvement field-trial conducted in Western Australia. We introduced a **Fischer Weeding System** to manage permanent sward within a herbicide free vineyard management plan. Today we are proud to offer Australian growers innovative solutions for conventional and chemical-free weed control.

Founded and developed in Italy 45 years ago - Fischer GmbH is a well established family company with a world-wide reputation. Fischer mowers are exported to 25 different countries.

The main **objectives** of Fischer mowers encompass; handling multiple tasks in one tractor pass, making municipal, orchard and vineyard management more efficient by reducing production costs, chemical input and dramatically improve one's carbon footprint.

The quality and longevity of Fischer mowers speak for themselves, ensuring technical simplicity, low impact on soil and state-of-the-art operating systems.

We are an innovative and experienced team, specialising in meeting specific customer requirements on demand. We offer modern-solutions for a wide range of applications, suitable for general found maintenance, orchard, vineyard and municipal requirements.

Hydraulic Fine-Sensor Technology & Reach Arm

- The acclaimed, hydraulic Fine-Sensor Technology from Fischer forms an integral component of various mowers and weeding systems within our range.

General Overview

We offer:

- PTO driven mowers and weeding systems with hydraulic side-shift.
- Inter-row to undertree/fence mowers with hydraulic fine-sensor technology.
- Large-area mowers with or without swivel-arm disc mowers, and with or without fine-sensor technology.
- High-speed bio-brush weeders for many applications.
- Hydraulic disc mowers with hydraulic fine-sensor technology.
- Hydraulic flail mowers with hydraulic multi-position reach arm.
