- **FTTN**: *Fibre to the Node;* **HFC**: *High Fibre Coaxial;*
- *Service Area Modules (SAM) cover approximately 2000 premises and often do not cover the entirety of a suburb. Therefore a suburb may be highlighted multiple times, due to each SAM having different construction dates.*
- *All information on NBN roll out has been sourced from* http://www.nbnco.com.au/
- *Internet connectivity information based on 2011 Census data sources from Profile.Id*
