D2024/15412

PURPOSE OF REPORT

The purpose of this report is to provide Council with an overview of the EMRC's financial performance for the period ended 31 May 2024.

KEY POINTS

- Significant year to date budget variances greater than 10% or \$20,000, whichever is the greater, within each nature and type category on the Statement of Comprehensive Income as at 31 May 2024 have been identified and are reported on in the body of the report.

RECOMMENDATIONS

That Council receives the Statement of Comprehensive Income, Capital Expenditure Statement, Statement of Financial Position, Statement of Cash and Investments, Statement of Financial Activity and the Investment Report for the period ended 31 May 2024.

SOURCE OF REPORT

Chief Financial Officer

BACKGROUND

- 1 It is a requirement of the *Local Government (Financial Management) Regulations 1996* (r.34) that a Local Government is to prepare and present to Council financial reports in such a form as the Local Government considers to be appropriate.
- 2 Submitted to each meeting of Council is a financial report and summaries which provide an overview of year to date budget performance for operating activities and capital works. Variances greater than 10% or \$20,000, whichever is the greater, within each nature and type category on the Statement of Comprehensive Income are reported on in the body of the report. Also included are end of year forecasts by nature and type for operating activities and end of year forecasts for each capital works project. These forecasts are reviewed regularly in order to provide an accurate forecast of the end of year result.
- 3 The half year review was undertaken during January/ February 2024 and is reflected in this report.

REPORT

- 4 Outlined below are financial statements for the period ended 31 May 2024. Where possible the year to date monthly budget allocations will be reviewed in order to match the appropriate timing for the various projects budgeted to be undertaken. This will provide a better comparison between the year to date actual and year to date budget figures.

Statement of Comprehensive Income - Nature and Type (refer Attachment 1)

5 The net operating result as at 31 May 2024 is a favourable variance of \$5,161,409 (53.71%) against budget. The following information is provided on key aspects of Council’s year to date financial performance:

Operating Income	Actuals for the Year	A favourable variance of \$7,701,932 (19.29%)
	End of Year Forecasts	A favourable variance of \$4,118,116 (9.20%)

Operating Income Variances Previously Reported to Council

- 6 Year to date Net User Charges of \$34,831,568 is above the budget by \$4,925,488 (16.47%). The variance is attributable to additional tonnages received mostly from Commercial Customers at 70.71% compared to Member Council at 29.29%.
- 7 Year to date Secondary Waste Charge of \$3,147,427 is above the budget by \$1,459,114 (86.42%). This is primarily attributed to the delay in East Rockingham Waste to Energy (ERWtE) project and the tonnages from member councils being redirected to Redhill Waste Management Facility (RHWMF).
- 8 The full year forecast for the Secondary Waste Charge is above the annual budget by \$1,132,096 due to the delay in the ERWTE project. This resulted in greater tonnes being forecast to be disposed at the RHWMF.
- 9 Year to date Contribution is above the budget by \$22,965 (20.92%) predominantly due to the contribution received for sponsorship of the Circular Economy Leadership Course. This also resulted in the full year forecast above the annual budget by \$22,990.
- 10 The full year forecast for Contributions is above the annual budget by \$22,990 due to an unbudgeted contribution received for sponsorship of the Circular Economy Leadership Course.
- 11 Year to date Operating Grants is below the annual budget by \$211,377 (61.99%). Following the interim audit, it has been decided that the grants for FOGO Picking station will be recognised once the plant is operational.
- 12 The full year forecast for Operating Grants is below the annual budget by \$295,379. This variance is attributable to the decrease in anticipated grant funding for the Electrical Vehicle charging type grant.
- 13 Year to date Interest on Municipal Cash Investments of \$1,313,109 is above the budget by \$1,116,242 (567%) due to the higher investment rate achieved (4.91% average interest vs 3.75% budgeted) and higher available funds for investments.
- 14 The full year Interest on Municipal Cash Investments has been forecasted to be above the budget by \$1,096,145 (510.37%) due to the increase in investment rates during the year and the higher available funds for investments.

- 15 Year to date Interest on Restricted Cash Investments of \$2,238,447 is above the budget by \$574,202 (34.50%) due to the higher investment rates achieved and higher available funds for investments.
- 16 Year to date Reimbursement is above the budget by \$305,870 (17.67%). The major variances relate to a reimbursement of \$216,692 for Biobags and \$130,680 for Woodside project and \$121,122 for Bin Management on Regional Waste Collection Project. This is offset by a lower reimbursement of \$125,453 for Coppin Rd Transfer Station.
- 17 The full year forecast for Reimbursements has been forecasted to be \$667,952 (34.44%) above the budget of \$1,939,340. The primary variances are due to the higher recoup of \$228,727 from Baywaste Transfer Station operations, an unbudgeted recoup of \$216,632 from participants for the purchase of FOGO caddies and liners (Biobags), an unbudgeted recoup of \$153,277 relating to Bin Management on the Regional Waste Collection Project and an unbudgeted recoup relating to the Woodside project.
- 18 Year to date Other Income of 3,094,039 is \$476,365 (13.34%) below the budget due to the delays in the Wood Waste to Energy Project. The budgeted Electricity Sales Income of \$387,450 from this project has been delayed.
- 19 The full year forecast for Other Income of \$2,816,714 is \$1,139,000 (28.79%) below the budget of \$3,955,714. The major factors contributing to this variance include an income from Wood Waste to Energy Project forecast to be \$934,116 below the budget and income from Methane forecast to be \$564,160 below the budget.
- 20 The full year forecast for Proceeds from Sale of Assets of \$500,273 has been forecasted to be \$78,273 (18.55%) above the budget of \$422,000. This variance relates to the timing on the disposal by auction of fleet vehicles due for change over.
- 21 There were no further significant Operating Income variances as at 31 May 2024.

Operating Expenditure	Actuals for the Year	An overspend variance of \$2,540,523 (-8.38%)

- 23 Year to date Utility Expenses is above the budget by \$57,431 (16.62%). This variance is attributed to higher than budgeted electricity expenses for the Waste Transfer Station Building.

- 24 Year to date Fuel Expenses of \$1,612,298 is above the budget by \$202,032 (14.33%). The variance is due to the increased fuel consumption resulting from the higher volume of tonnage received.
- 25 The full year forecast for Fuel Expenses is \$411,975 (26.78%) above the budget of \$1,538,583. The variance is attributable to the additional diesel fuel forecast to be consumed as a result of the increase in tonnages forecast to be disposed at the RHWMF by year end.
- 26 The full year forecast for Interest Expenses is \$369,408 above the budget. The variance is attributable to the adjustment in the estimated unwinding of discount on Post Closure and Site Rehabilitation Provisions in response to the change in the Consumer Price Index (CPI).
- 27 The full year forecast for Insurance Expenses is \$124,041 above the budget of \$427,647. The variance is due to an increase in insurance premium and additional insurance required for Wood Waste to Energy Project.
- 28 Year to date Depreciation Expenses is above the budget by \$1,268,605 (30.49%). The major variance relates to the higher cell usage as a result of additional commercial and non-member Council tonnages received.
- 29 The full year forecast for Depreciation Expenses is \$2,540,231 (56.38%) above the budget of \$4,505,745. The variance is attributable to the higher Depreciation Expenses - Cell Usage of \$1.47m due to the additional tonnages forecast to go to landfill as at year end (due to the delay in the ERWTE project) and additional commercial tonnages forecast to be received and the higher Depreciation Expenses - General of \$1.07m due to additional plant purchased during the year.
- 30 Year to date Miscellaneous Expenses is below the budget by \$424,419 (34.15%) due to the timing of various projects from different business units. - 33 The full year forecast for Provision Expenses is \$857,738 (93.51%) below the budget of \$917,260. The variance relates to the adjustment in the estimated of future value of Post Closure and Site Rehabilitation Provisions in response to the change in the Consumer Price Index (CPI).
- 34 Year to date Cost Allocations is below the budget by \$275,685 (99.85%). This variance relates to internal costs allocated to various projects and specifically capital expenditure projects that have been budgeted to utilise the EMRC's plant and labour as well as the timing of various projects.
- 35 The full year forecast for Costs allocations is \$117,224 below the budget. This variance relates to lower than budgeted internal costs allocated to various projects and specifically capital expenditure projects that have been budgeted to utilise the EMRC's plant and labour.

D2024/12593

PURPOSE OF REPORT

KEY POINT(S)

- Council Policy 3.3 - Management of Investments Policy was last reviewed at the meeting of Council held on 23 September 2021.
- It is proposed to increase the Policy limits for AA rated ADI's from 35% for single entities to 45%.
- It is proposed that the existing Policy, as revised with amendments, be adopted.

RECOMMENDATION(S)

That:

1. Revised EMRC Policy 3.3 - Management of Investments Policy forming attachment 2 to this report be adopted by Council.
2. EMRC Policy 3.3 - Management of Investments Policy be next reviewed in the twelve months following the ordinary election day in 2025.

SOURCE OF REPORT

Chief Financial Officer

BACKGROUND

- 1 EMRC Policy 3.3 - Management of Investments Policy was last reviewed at the meeting of Council held on 23 September 2021 (D2021/18149).

REPORT

- 2 The policies of the EMRC, determined by Council as required by Section 2.7(2)(b) of the *Local Government Act 1995* (the Act), guide and inform management and the public about key Council principles. It is important that policies are reviewed periodically and amended where necessary.
- 3 A review of the existing policy has been undertaken with the following objectives used as a basis for undertaking the review:
 - To ensure that the policy meets the definition of a policy;
 - To incorporate in the policy appropriate amendments to account for changes in details such as dates, times and values since the last review;
 - To realign the policy with the adopted revised *10 Year Strategic Plan 2017-2027* and the *Sustainability Strategy*; and
 - To ensure the policy is contemporary and appropriate for the Council.

- 4 The three main actions undertaken when reviewing a policy include:
- Maintain the current policy without amendment;
 - Maintain the policy with amendments; and
 - Delete the policy if it is no longer required, for example, if these are covered under the *Local Government Act 1995* and regulations or has been incorporated into another policy.
- 5 Proposed amendments to the EMRC Investments Policy are as follows:
- Increasing the maximum allowable exposure to the individual banks in AA rating category.
 - Updating the S&P Global Ratings (S&P) long-term rating definitions as per S&P’s website:

AAA	'AAA' is the highest rating assigned by S&P. An obligor rated 'AAA' has an "extremely strong capacity to meet financial commitments"
AA	An obligor rated 'AA' has a "very strong capacity to meet financial commitments"
A	An obligor rated 'A' has a "strong capacity to meet financial commitments, but is somewhat susceptible to economic conditions and changes in circumstances"
BBB	An obligor rated 'BBB' has "adequate capacity to meet financial commitments, but is more subject to adverse economic conditions"

Source: <https://www.spglobal.com/ratings/en/about/intro-to-credit-ratings>

- Adding a paragraph under section 11 Investment Advisor to ensure any brokerage/commission is fully rebated to all clients within the advisor’s entire business to ensure there is no follow on conflict of interest in recommendations to Council.
- 6 Since the early 2010s, post the Global Financial Crisis (GFC) period, term deposit (TD) rates from the major banks had been largely in line with or even better than most lower rated banks. Over recent years, there has been some ‘normalisation’ of credit margins where a few lower rated banks offer higher rates than the major banks, however, this has not been consistent. On a regular basis, there has been at least two of the major banks offering very competitive, and often better, TD rates versus their lower rated peers.

The graph below shows how little difference there has been between the two best 6 month TD rates from the highest AA rated banks versus those in the A and BBB rating category over the past two years:

- 7 When TD rates from various banks are in line with each other, and non-fossil fuel objectives are taken into consideration, the bank with the highest credit rating is preferred.
- 8 Council has proactively taken advantage of the best TD rates from the highest rated banks when possible, however the 35% investment policy limit with any single entity in the AA credit rating category has proven to be unnecessarily restrictive given this category includes the highest rated Australian banks, the four majors.
- 9 By allowing a larger, but still prudent, exposure to single entities in the AA rated category, Council will be able to take better advantage of competitive rates from the four majors, including Westpac which has an active Green TD program, thus keeping overall return high and maintaining a sound credit profile for the portfolio.
- 10 At the last review, the policy limit in the AA rated category was reduced to 35% in part due to the higher level of available funds for investment. Due to the current decline in available investment funds, partly as a result of distribution, increasing the policy limit in the AA rated category back to 45% will allow the EMRC to allocate investments towards the four major banks, maximising the opportunity to invest at higher available interest rates.
- 11 By way of comparison, the proposed overall and individual limits to the AA category is inline with or more conservative than most of EMRC’s member councils. Note, most banks with long term ratings in the AA category have short term ratings of A-1+. Bassendean, Bayswater and Swan reference short term categories:

Council	Overall AA Limits	Single entity AA Limits
EMRC	100%	45%
Bassendean	100% (as A-1+)	50% (as A-1+)
Bayswater	100% (as A-1+)	45% (as A-1+)
Mundaring	90%	30%
Swan	100% (as A-1+)	45% (as A-1+)

- 12 The main proposals for the Management of Investments Policy are detailed in the following Points 11, 12 and 13.

13 Updating the Risk Management Guidelines Tables

- The Risk Management Guidelines tables are the framework for sound investment management aimed at controlling the credit quality and term limits on the entire portfolio.
- It is proposed to increase the maximum allowable exposure to the individual ADIs in AA rating category from 35% to 45%.
- This will still leave EMRC in line with or on the more conservative side of AA limits versus those allowed by most of EMRC’s member councils whilst giving EMRC more opportunity to take advantage of higher rates on offer from banks in this rating category.
- No changes to the Overall Portfolio Limits are being proposed.

14 Overall Portfolio Limits

- To control the credit quality on the entire portfolio, the following credit framework limits the percentage of the portfolio exposed to any particular credit rating category.
- No changes are recommended:

S&P Long Term Rating	Current Portfolio Maximum %	Proposed Portfolio Maximum %
AAA	100%	100%
AA	100%	100%
A	100%	100%
BBB	40%	40%

15 Single Entity Exposure

- Exposure to an individual institution will be restricted by its credit rating so that single entity exposure is limited, as detailed in the table below.
- Increase of AA category limit from 35% to 45% is proposed:

S&P Long Term Rating	Current Portfolio Maximum %	Proposed Portfolio Maximum %
AAA	45%	45%
AA	35%	45%
A	35%	35%
BBB	20%	20%

16 Reporting

- An investment report is prepared each month detailing the compliance with the criteria outlined in the policy
- The investment report is presented to Council at the next ordinary meeting of Council following the end of the month along with the monthly financial reports to which the investment report relates.
- A copy of the last investment report presented to Council, at its May 2024 meeting is attached forming Attachment 3 of this report.

Establish guidelines to ensure investments:

- Meet legislative requirements;

Are invested at the most favourable rate of interest available to it at the time whilst having due consideration of risk and security for that investment type.

Legislation

Local Government Act 1995 s.6.14

Local Government (Financial Management) Regulations 1996 – r. 19-19C, 28 & 49

Local Government (Financial Management) Amendment Regulations 2017 s.19C(2)(b)

Trustees Act 1962 - Part III

Policy Statement

1 Ethics and Conflicts of Interest

Officers shall refrain from personal activities that would conflict with the proper execution and management of EMRC's investment portfolio. This policy requires officers to disclose any conflict of interest to the CEO.

2 Delegation of Authority

Authority for implementation of the Management of Investments Policy is delegated by Council to the CEO in accordance with the *Local Government Act 1995*. The CEO may in turn delegate the day-to-day management of Council's investment portfolio to the Chief Financial Officer.

3 Investment Ratings

Investment ratings in this policy are based on those issued by S&P Global Ratings (S&P), Standard & Poor's.

In the event a proposed investment is not rated by S&P Standard & Poor's but is rated by either Fitch Ratings or Moody's by a rating which is analogous to the ratings of S&P Standard & Poor's, then the EMRC may make the investment relying on the Fitch Ratings or Moody's ratings.

In the event that the rating of an investment held by the EMRC falls below the ratings allowed under this policy for new investments, the affected investment is to be assessed and a recommendation made to the Investment Committee to decide as to whether:

- It is to be liquidated, where allowed under the terms of the investment; or
- It is to be held to maturity.
- The recommendation to the Investment Committee may be made by electronic mail (email) to expedite the approval process by circular resolution.

4 Approved Investments

Approved investments are those investments permitted by s.6.14(1) of the *Local Government Act 1995* as specified in the *Trustees Act 1962 Part III* subject to the limitations expressed in Regulation 19C of the *Local Government (Financial Management) Regulations 1996*.

5 Preference for Non-Fossil Fuel Investments

When making investment decisions, the EMRC will give preference to institutions that do not invest in or finance the fossil fuel industry, where:

- The investment complies with EMRC's investment policy;
- The rate of interest is favourable to EMRC relative to alternative options available at the time;
- The credit rating of the investment is comparable to alternative options available at the time.

Non-fossil fuel investment considerations will be part of the overall selection process to best meet EMRC's investment strategy objectives while ensuring compliance with prevailing legislation and this Investment Policy.

6 Prohibited Investments

This investment policy prohibits any investment which is not an Approved Investment.

Formatted: Indent: Left: 1 cm

7 Risk Management Guidelines

Investments obtained are to be considered in light of the following key criteria:

- Preservation of Capital – the requirement for preventing losses in an investment portfolio's total value;
- Diversification – the requirement to place investments in a broad range of products so as not to be over exposed to a particular sector of the investment market;
- Market Risk - the risk that the fair value or future cash flows of an investment will fluctuate due to changes in market prices;
- Liquidity Risk - the risk an investor is unable to redeem the investment at a fair price within a timely period;
- Maturity Risk - the risk relating to the length of term to maturity of the investment. The larger the term, the greater the length of exposure and risk to market volatilities; and
- Investments must be rated at not less than the S&P Standard & Poor's ratings (or Moody's or Fitch Ratings equivalent as detailed in section 3) specified below.

Furthermore investments are to comply with three key criteria relating to:

7.1 Overall Portfolio Limits

To control the credit quality on the entire portfolio, the following credit framework limits the percentage of the portfolio exposed to any particular credit rating category.

S&P Long Term Rating	Portfolio Maximum %
AAA & AA	100%
AA & A	100%
BBB	40%

Formatted: Indent: Left: 0 cm

7.2 Single Entity Exposure

Exposure to an individual institution will be restricted by its credit rating so that single entity exposure is limited, as detailed in the table below:

S&P Long Term Rating	Portfolio Maximum %
AAA & AA	45%
AA & A	35%
BBB	20%

Commented [EG1]: It is recommended to increase the Single Entity exposure limit for banks in the AA category to 45% from 35%. This will better allow Council to benefit from the competitive rates frequently offered by Australia's highest rated banks. The change will also bring Council's policy limits more inline with EMRC's member councils.

The limits are to be adhered at the time of investment. It is recognised that the limit percentage may exceed the threshold over time due to investment or withdrawal of the overall amount of investment.

For the purpose of this policy, the funds held in Municipal account are excluded from the total investment calculation for threshold limits.

7.3 Term to Maturity Framework

Term	Minimum %	Maximum %
Portfolio % ≤1 year	40%	100%
Portfolio % >1 year ≤ 3 year	0%	60%

Formatted: Font: 6 pt

Standard & Poor's S&P long-term rating definitions:

AAA	An obligation rated 'AAA' has the highest rating assigned by S&P Standard & Poor's. An obligor rated 'AAA' has an "extremely strong capacity to meet financial commitments" capacity to meet its financial commitment on the obligation is extremely strong.
AA	An obligor rated 'AA' has a "very strong capacity to meet financial commitments" An obligation rated 'AA' differs from the highest rated obligations only to a small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.
A	An obligor rated 'A' has a "strong capacity to meet financial commitments, but is somewhat susceptible to economic conditions and changes in circumstances" An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.
BBB	An obligor rated 'BBB' has "adequate capacity to meet financial commitments, but is more subject to adverse economic conditions" An obligation rated BBB exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to the obligor to meet its financial commitment on the obligation.

8 Measurement Source

The investment return for the portfolio is to be regularly reviewed. The market value and investment maturities are to be assessed at least once a month to coincide with management reporting.

9 Procedures

Investments placed by Council's authorised advisor/s and managers must be appropriately documented at the time of placement.

Appropriate procedures and controls in regards to record keeping, reconciliation, authorisation forms and accounting for investments shall be prepared and maintained to give effect to this policy.

All investments must be authorised in writing by the CEO, or EMRC's authorised managers as per the CEO's delegated authority, prior to the investments being made.

10 Reporting

An investment report is to be prepared each month detailing compliance with the criteria outlined in this policy.

The investment report is to be presented to Council at the next ordinary meeting of the Council following the end of the month to which the report relates. If the statement is not prepared in time to present it to that meeting it is to be presented at the next Ordinary Meeting of the Council following that meeting.

11 Investment Advisor

The CEO has delegated authority to appoint an investment adviser when considered appropriate.

The local government's investment advisor must be licensed by the Australian Securities and Investment Commission. The advisor must be an independent person who has no actual or potential conflict of interest in

relation to investment products being recommended; and is free to choose the most appropriate product within the terms and conditions of the investment policy.

Any commissions paid to the advisor by banks/product providers will be rebated, or otherwise onforwarded, to Council as per ASIC requirements for an independent investment advisor. No part of the Investment Advisory business even if not directly relating to Council's investments is to operate on a brokerage/commission basis unless all brokerage/commission is fully rebated to any and all of its clients, as these can still create a conflict of interest in recommendations to Council.

Commented [EG2]: We are seeing commission-driven brokers/platform providers trying pass themselves off as independent advisors. This is against ASIC regulations for being able to call themselves independent investment advisors. Prudential passes all commissions onto our clients.

12 Investment Strategy

EMRC's investment strategy is to optimise investment income within its acceptable levels of risk whilst ensuring the security of these funds enabling the EMRC to meet its business objectives.

Key considerations in this regard include funding requirements identified in the Five Year Plan.

To implement the requirement for diversification, Council's authorised advisors and managers will comply with the Overall Portfolio Limits, Single Entity Exposure, and Term to Maturity limits, as detailed in section [7.1, 7.2 and 7.3\(a\)\(b\)\(c\)](#).

The EMRC may invest all of the total investments in Commonwealth/State/Territory bonds.

An indicative sample list of complying authorised deposit-taking institutions (ADI's) is reflected in the Appendix and may vary from time to time.

As indicated in this policy.

BACKGROUND

- 1 It is a requirement of section 5.18 of the Act that the delegations made by the Council to Committees are reviewed at least once in every financial year.
- 2 It is a requirement of section 5.46 of the Act that the delegations made by the Council to the CEO are reviewed at least once in every financial year.
- 3 At the Ordinary Meeting of Council on 22 February 2024, a procedural motion was passed by a vote of 5:3 to defer the annual statutory review of the exercise of powers and discharge of duties delegated by Council to provide further information to assist Council with its review.
- 4 Council has requested that the EMRC Officers review the list of delegations for renewal and make new recommendations to re-affirm, amend or remove any of the delegations.
- 5 At the Ordinary Meeting of Council on 28 March 2024 Council was advised that additional time will be required to undertake an overhaul of the register of delegations to match templates used by other councils and that the item be brought back to the 27 June 2024 ordinary council meeting.

REPORT

- 6 The list of Council decisions to delegate its powers or duties to a Committee or to the CEO are listed below. Only the decisions which are still current are being recommended to Council for review and to be re-affirmed in the proposed new EMRC Delegations Register.
- 7 The table below provides more detail on each of the delegations and the reasons for why each delegation is to be retained and removed in relevance to EMRC’s operations.
- 8 Authorisation limits for officers are subject to a management guideline, Authorisation of Expenditure for such operational matters.
- 9 The new proposed EMRC Delegations Register forming attachment 1 of this report was reviewed against the WALGA Local Government Decision Making Template Delegations Register which encompasses various subjects and functions applicable to Local Government. However, as EMRC operations focus exclusively on waste management, a substantial number of delegations within the WALGA template register do not apply to the EMRC.
- 10 Similarly, following the review and overhaul of the previous delegations register a number of the delegations are being recommended for removal to be in line with the WALGA template register.
- 11 At the Special Council meeting on 18 April 2024, Council resolved to establish a CEO Recruitment Committee (CEORC) and to delegate to the CEORC the power to engage an independent human resource consultant to assist in carrying out its functions. This new delegation has been added to the new proposed delegations register and is summarised in the table below.
- 12 The following table summarises a number of changes to the EMRC delegations register that are included in the new proposed EMRC Delegations Register forming attachment 1 of this report.

SOURCE OF REPORT

Chief Operating Officer

BACKGROUND

- 1 As part of landfill development at the Red Hill Waste Management Facility, the EMRC excavates cells for the disposal of waste to ensure that there is always the capacity for waste to be landfilled. The site has a surface layer of lateritic caprock that must be removed, and any cell excavation includes, in part, the excavation of caprock. The excavated caprock is crushed into ferricrete for use as a road construction material. The crushing specifications for ferricrete conform to Main Roads WA Specification 501. The income from the sale of the ferricrete offsets the cost of the caprock removal and crushing.
- 2 Tender RFT 2024-002 is for the excavation of caprock, for the stockpiling of the rock and for the crushing, screening and stockpiling of material crushed to the product specifications as required. The tender is for an initial three (3) year period with an option for two (2) single year extensions, exercisable by the CEO subject to satisfactory performance.

REPORT

3 Tender RFT 2024-002 for Caprock Removal and Crushing was advertised on 17 February 2024 and closed on 25 March 2024. Three (3) compliant submissions were received from:

- a) B&J Catalano Pty Ltd
