- 5 The review process includes a rigorous assessment being undertaken by responsible officers for each section.
- 6 A high level of compliance was achieved. Where applicable, the details and explanations relating to the completion of the return appear in the relevant comment sections of the CAR.

- 7 After the CAR has been adopted by Council a certified copy of the return along with the relevant section of the minutes and additional information explaining or qualifying the compliance audit, is to be submitted to the Department of Local Government, Sport and Cultural portal by 31 March 2025.

12.2 HALF YEAR BUDGET REVIEW 2024/2025

D2025/03680

PURPOSE OF REPORT

The purpose of this report is to provide Council, via the Audit Committee, with details of the Eastern Metropolitan Regional Council's (EMRC's) 2024/2025 half year budget review for adoption and subsequent submission to the Department of Local Government, Sport and Cultural Industries.

KEY POINT(S)

- It is a requirement of r.33A of the *Local Government (Financial Management) Regulations 1996* that a local government, between 1 January and the last day of February in each forwarded year, is to carry out a review of its annual budget for that year.
- Council receives monthly financial reports inclusive of end of year forecasts. Forecasts have been constantly monitored and reviewed based on current information and circumstances available to provide a more accurate forecast of the year end result.

RECOMMENDATION(S)

That Council, by absolute majority in accordance with r.33A of the *Local Government (Financial Management) Regulations 1996*, adopts the review of the 2024/2025 budget and approves its submission to the Department of Local Government, Sport and Cultural Industries within 14 days.

SOURCE OF REPORT

Chief Financial Officer

BACKGROUND

- 1 It is a requirement of r.33A of the *Local Government (Financial Management) Regulations 1996* that a local government, between 1 January and the last day in February in each forwarded year, is to carry out a review of its annual budget for that year.
- 2 Regulation 33A(2) states the review of an amount budget for a financial year must be submitted to Council on or before 31 March in that financial year.
- 3 Regulation 33A(4) also states that within 14 days after the Council consider the review submitted to it and determine, by absolute majority, whether or not to adopt the review, any parts of the review or any recommendation made to the review.
- 4 A financial report and summaries which provide an overview of year to date budget performance for operating activities and capital works are submitted to each meeting of Council. Variances greater than 10% or \$20,000, whichever is the greater, within each nature and type category on the Statement of Comprehensive Income are reported on in the body of the report. Also included are end of year forecasts by nature and type for operating activities and end of year forecasts for each capital works project. These forecasts are reviewed regularly in order to provide an accurate forecast of the end of year result.
- 5 The half year budget review was undertaken during January/February 2025 and is reflected in this report.

REPORT

- 6 Whilst the budget review is a statutory requirement, due to the commercial nature of the EMRC's waste operations, forecasts are conducted throughout the year in order to adjust costs (where possible) in relation to available tonnage throughput.

Format of Budget Review

- 7 The format of the statutory review undertaken is based on an examination by officers of all EMRC accounts (operating income, operating expenditure and capital expenditure accounts) within their area of responsibility.
- 8 A review of the tonnages budgeted to be received at the Red Hill Waste Management Facility (RHWMF) is also undertaken. Tonnage budgets are reviewed to provide a forecast of volumes expected to be received by 30 June 2025. These forecasts, when calculated against the previously adopted disposal rates, provide financial forecasts relating to the following:
- Income from normal operations (including landfill levy);
 - Landfill Levy Expenditure;
 - Waste Education Levy Income; and
 - Cell usage and depreciation.
- 9 All forecasts, which are an actual review of the budgets set against each account, are entered into the financial management system in order to provide a more accurate forecast of the end of year result.
- 10 The year-to-date monthly budget allocations are also reviewed in order to match the appropriate timing for the various projects budgeted to be undertaken. A review is undertaken to ensure that the year-to-date budget allocations best reflect the timing applicable either to expenditure expected to be incurred or income to be received. This process commences immediately following adoption of the budget and is constantly being monitored and reviewed based on current information and circumstances available. This process provides a better comparison between the year to date actual and year to date budget figures.

Adjustments resulting from Budget Review

- 11 EMRC officers undertook the latest review based on the actual financial data provided for the period ended 31 December 2024. The financial report relating to the period ended 31 January 2025 was submitted to Council at its meeting held on 27 February 2025. However, that report did not include the revised forecasts that have resulted from the half year budget review.
- 12 In accordance with the process followed in previous years, the original budget is not updated with the revised forecasts, as relevant regulations require the end of year results to be compared to the original adopted annual budget, rather than the reviewed budget.
- 13 Whilst it is accepted that many costs are incurred generally within a specific pattern, many are not. These include significant costs incurred relating to operating and capital projects, which depend solely on the timing of when the project is undertaken.

- 14 The following is a summary of the forecast changes to operating budget provisions resulting from the half year budget review:

Changes In	Total
Increase/(Decrease) in Operating Income	(\$6,232,418)
(Increase)/Decrease in Operating Expenditure	\$8,608,888
Increase/(Decrease) in Net Assets from Operations	\$2,376,470
(Increase)/Decrease in Revaluation of Assets	(12,238,929)
Increase/(Decrease) in Net Assets	(\$9,862,459)

- 15 Provided below is a summary of changes between the original budget and the forecast for the financial year ending 30 June 2025. Comments are provided for significant variances using Council's adopted criteria of 10% or \$20,000, whichever is the greater, as a guide:

- 20 **Secondary Waste Charge**

Current Budget: \$1,181,382 Forecast Budget: \$619,323 Variance: (\$562,059) (47.58%)

- 21 The full year forecast for the Secondary Waste Charge is below the annual budget by \$562,059 (47.58%). -----------------------------	------------------------------	---------------------	--------

29 The full year forecast for Reimbursements has been forecast to be \$454,619 (22.14%) above the budget of \$2,053,456. The primary variances are due to higher than budgeted income in the following areas:

- 55 This is offset by an increase in the following Capital Expenditure budget provision (including new projects) following a review of the capital expenditure program:
- Construct Class III Cell Stage 17 – RHWMF - \$1,676,412;
- 56 At its meeting on 22 February 2024, Council approved additional budget funding for the construction of Stage 17 landfill cell. The full approved fund was not spent by the end of 2023/2024 and the remaining amount has been carried forward as an adjustment in 2024/2025 forecast.
- Purchase / Replace Plant – RHWMF - \$251,328;

- Gas Extraction System Wells – RHWMF - \$200,000;
- 58 The further funds are required due to the additional waste tonnages received at Red Hill. As a result, the cell has been completed earlier than expected which includes gas well installation.
- Construct Wheel Wash Bath – RHWMF - \$200,000;
- 59 The fund for Construct Wheel Wash Bath was budgeted under an account for Purchase Wheel Wash. However, once the installation was completed, the asset was reclassified as infrastructure.
- Purchase / Replace Other Equipment – RHWMF - \$139,000; and
- 60 The upgrade work to the electrical switch board of the main leachate pond was delayed until July 2024; therefore, the cost that was budgeted in 2023/2024 is required to be carried forward as an adjustment in 2024/2025 forecast.
- Sewer Line connection to Talloman – HRRP - \$120,000.
- 61 The remaining work for the sewer line connection has continued into 2024/2025 due to the delay from the supplier. Therefore, the cost that was budgeted in 2023/2024 is required to be carried forward as an adjustment in 2024/2025 forecast.

D2025/03732

PURPOSE OF REPORT

The purpose of this report is to provide Council with an update on the EMRC's risk management profile.

KEY POINT(S)

- Sound corporate governance requires an integrated risk management approach including management processes, strategic planning, reporting and performance management.
- In accordance with the Risk Management Framework, an overview of the management of risk is reported approximately 3 – 4 times a year to the Audit Committee.

RECOMMENDATION(S)

That Council notes the update on the status of the Council's risk management profile.

SOURCE OF REPORT

Chief Financial Officer

BACKGROUND

- 1 At the Ordinary Council meeting on 22 August 2024 it was resolved inter alia that (D2024/21002):
 - 2 *COUNCIL ADOPTS THE COUNCIL POLICY 7.1 - RISK MANAGEMENT AS REVIEWED AND AMENDED FORMING ATTACHMENT 5 TO THIS REPORT.*
- 2 The EMRC has quantified its broad risk appetite through the EMRC's risk assessment and acceptance criteria. The criteria are included within the EMRC's Risk Management Policy, Risk Management Framework and the Risk Appetite Statement.
- 3 The EMRC continues to monitor and review process and to report on the progress of its achievement of the risk management objectives, the management of individual risks and the ongoing identification of issues and trends.
- 4 The last risk performance objectives were reported to the Audit Committee and Council in October 2024 (D2024/24989).

REPORT

- 5 The EMRC's Risk Management Framework provides the guidance to integrate risk management into significant activities and functions performed by the EMRC and supporting the EMRC's ability to use risk management as part of the decision-making processes.
- 6 The current EMRC risk appetite accepts the taking of controlled risks, the use of innovative approaches and the development of new opportunities to improve service delivery and to achieve EMRC objectives provided that the risks are properly identified, evaluated and managed to ensure that any exposures are acceptable.
- 7 The current risk management profile (heat map report), forming attachment 1 to this report, is a heat map report generated using the CAMMS risk software and shows all the EMRC's strategic risks. The heat map offers a visualised, comprehensive view of the likelihood and impact of the EMRC's strategic risks and helps the organisation improve its risk management and risk governance by prioritising risk management efforts.

- 8 The table below summarises the current risk management update associated with all the EMRC's strategic risks that are included in the attachment to this report.
