Responsible Officer	Chief Financial Officer	Nil

BACKGROUND

- 1 It is a requirement of the *Local Government (Financial Management) Regulations 1996* (r.34) that a Local Government is to prepare and present to Council financial reports in such a form as the Local Government considers to be appropriate.
- 2 Submitted to each meeting of Council is a financial report and summaries which provide an overview of year to date budget performance for operating activities and capital works. Variances greater than 10% or \$20,000, whichever is the greater, within each nature and type category on the Statement of Comprehensive Income are reported on in the body of the report. Also included are end of year forecasts by nature and type for operating activities and end of year forecasts for each capital works project. These forecasts are reviewed regularly in order to provide an accurate forecast of the end of year result.

REPORT

- 3 Outlined below are financial statements for the period ended 31 March 2026. Where possible the year to date monthly budget allocations will be reviewed in order to match the appropriate timing for the various projects budgeted to be undertaken. This will provide a better comparison between the year to date actual and year to date budget figures.

Statement of Comprehensive Income - Nature and Type (refer Attachment 1)

- 4 The net operating result as at 31 March 2026 is an favourable variance of \$6,253,891 (303.22%) against budget. The following information is provided on key aspects of Council's year to date financial performance:

Operating Income Variances previously reported to Council

- 5 Year to date Net User Charges of \$32,490,098 is above the budget by \$5,743,430 (21.47%). The variance is attributed to higher commercial tonnages received than anticipated.
- 6 Year to date Interest on Municipal Cash Investments of \$386,031 is above the budget by \$266,817 (223.81%) due to the higher investment rate achieved (4.54% average interest vs 3.25% budgeted) and higher available funds for investments.
- 7 Year to date Interest on Restricted Cash Investments of \$1,661,363 is above the budget by \$740,825 (80.48%). The variance is attributed to a higher balance in Restricted Cash Investments.
- 8 Year to date Other Income is \$940,360 (54.97%) higher than the budgeted amount of \$1,829,475 is due to the additional income from the sale of Australian carbon credit units (ACCUs) and Ferricrete.
- 9 Year to date Proceeds from Sale of Assets is \$60,455 (37.78%) higher than the budgeted amount of \$160,000 is due to the unplanned disposal of vehicles.
- 10 The full year forecast for Net User Charges is above the annual budget by \$5,712,156 (16.02%). This variance is attributed to higher than budgeted tonnages forecast on Class III waste from Commercial Customers to be disposed at the RHWMF.
- 11 The full year Interest on Municipal Cash Investments has been forecast to be above the budget by \$302,647 (190.40%) due to the higher in investment rates achieved during the year and the higher available funds for investments.
- 12 The full year Interest on Restricted Cash Investments has been forecast to be above the budget by \$1,279,995 (104.29%). The variance is attributed to movements in restricted reserves and a higher balance in Restricted Cash Investments.

- 13 The full year forecast for Reimbursements has been forecast to be \$224,649 (12.00%) below the budget of \$1,871,673. The primary variances are due to lower than budgeted income in the following areas:
- \$321k - Lower recoup from Coppin Road Transfer Station including the CDS project operations (based on the level of expenditure);
 - \$26k - Lower recoup from Baywaste Transfer Station operations (based on the level of expenditure);
- This is offset by reimbursements higher than budget in the following areas:
- \$115k - Higher recoup from Mathieson Road Transfer Station operations (linked to the level of expenditure).
- 14 The full year forecast for Other Income of \$2,691,983 is \$252,698 (10.36%) above the budget of \$2,439,285. This increase is due to additional income from the sale of ACCUs.
- 15 There were no further significant Operating Income variances as at 31 March 2026.

Operating Expenditure Variances previously reported to Council

- 16 Year to date Salary Expenses of \$10,104,724 is below the budgeted of \$11,479,109 by \$1,374,385 (11.97%) due to the budgeted positions yet to be filled together with unfilled vacant positions.
- 17 Year to date Material Expenses of \$984,918 is \$209,154 (17.52%) lower than budget of \$1,194,072 due to the timing of variance projects from different business units. Areas where the expenditures are lower than budget for various business units include the Office of the CEO (\$69,757), Business Support (\$37,982), Sustainability (\$13,209) and Operations (\$88,206).
- 18 Year to date Fuel Expenses of \$1,255,267 is \$299,151 (19.25%) below the budget. The variance is attributed to reduced plant utilisation resulting in lower fuel expenditure.
- 19 Year to date Insurance Expenses is \$149,977 (23.65%) below the budget of \$634,230 due to the lower than budgeted insurance premium for Waste Transfer Station from previous financial year.
- 20 Year to date Depreciation Expenses of \$8,880,341 is \$3,872,260 (77.32%) higher than the budget. The variance is primarily due to higher tonnages received in Class III Cell and the new depreciation rate that has been applied to Class III cell to reflect the costs associated with Class III stage 17, 14 and 16.
- 21 Year to date Miscellaneous Expenses is below the budget by \$362,612 (35.45%) due to lower transportation costs incurred at the Waste Transfer Station. This decrease was a result of lower tonnages being received at the station.

- 22 Year to date Provision Expenses is above the budget by \$449,900 (25.30%). The main reason for this variance is the increased Class III tonnages received which has resulted in higher provisions for Post Closure Site Rehabilitation and Environmental Monitoring being required.
- 23 The full year forecast for Material Expenses is below the annual budget by \$239,743 (15.14%). The variance is due to the lower amount spent on minor equipment purchases and lower material expenses required for Hazelmere.
- 24 The full year forecast for Fuel Expenses is \$382,743 (18.50%) below the annual budget. The variance is attributed to decreased plant utilisation leading to lower fuel costs.
- 25 The full year forecast for Depreciation Expenses is \$3,844,041 (57.59%) above the budget of \$6,674,450. The variance is attributed to the higher Depreciation Expenses - Cell Usage due to the additional commercial tonnages forecast to be received at Red Hill.
- 26 The full year forecast for Miscellaneous Expenses has been forecast to be \$406,846 (27.89%) below the budget of \$1,458,798. The principal variances are due to lower than budgeted expenditure in the following areas:
- Transportation expenses between the sites by \$200k;
 - Council rates and charges expenses by \$185k; and
 - Conference or seminar fee expenses by \$17k.
- 27 The variance relates to the adjustment in the estimated of future value of Post Closure and Site Rehabilitation Provisions in response to the change in the Consumer Price Index (CPI) and the additional costs due to higher forecasted tonnages.
- 28 There were no further significant Operating Expenditure variances as at 31 March 2026.

BACKGROUND

- 1 It is a requirement of the *Local Government (Financial Management) Regulations 1996* (r.34) that a Local Government is to prepare and present to Council financial reports in such a form as the Local Government considers to be appropriate.
- 2 Submitted to each meeting of Council is a financial report and summaries which provide an overview of year to date budget performance for operating activities and capital works. Variances greater than 10% or \$20,000, whichever is the greater, within each nature and type category on the Statement of Comprehensive Income are reported on in the body of the report. Also included are end of year forecasts by nature and type for operating activities and end of year forecasts for each capital works project. These forecasts are reviewed regularly in order to provide an accurate forecast of the end of year result.

REPORT

- 3 Outlined below are financial statements for the period ended 30 April 2026. Where possible the year to date monthly budget allocations will be reviewed in order to match the appropriate timing for the various projects budgeted to be undertaken. This will provide a better comparison between the year to date actual and year to date budget figures.

Statement of Comprehensive Income - Nature and Type (refer Attachment 1)

- 4 The net operating result as at 30 April 2026 is an favourable variance of \$6,989,891 (318.42%) against budget. The following information is provided on key aspects of Council's year to date financial performance:

Operating Income Variances previously reported to Council

- 5 Year to date Net User Charges of \$36,191,388 is above the budget by \$6,472,868 (21.78%). The variance is attributed to higher commercial tonnages received than anticipated.
- 6 Year to date Interest on Municipal Cash Investments of \$473,352 is above the budget by \$340,892 (257.35%) due to the higher investment rate achieved (4.54% average interest vs 3.25% budgeted) and higher available funds for investments.
- 7 Year to date Interest on Restricted Cash Investments of \$1,844,783 is above the budget by \$821,963 (80.36%). The variance is attributed to a higher balance in Restricted Cash Investments.
- 8 Year to date Other Income is \$935,972 (46.04%) higher than the budgeted amount of \$2,032,750 is due to the additional income from the sale of Australian carbon credit units (ACCUs) and Ferricrete.
- 9 Year to date Proceeds from Sale of Assets is \$60,454 (37.78%) higher than the budgeted amount of \$160,000 is due to the unplanned disposal of vehicles.
- 10 The full year forecast for Net User Charges is above the annual budget by \$5,712,156 (16.02%). This variance is attributed to higher than budgeted tonnages forecast on Class III waste from Commercial Customers to be disposed at the RHWMF.
- 11 The full year Interest on Municipal Cash Investments has been forecast to be above the budget by \$302,647 (190.40%) due to the higher in investment rates achieved during the year and the higher available funds for investments.
- 12 The full year Interest on Restricted Cash Investments has been forecast to be above the budget by \$1,279,995 (104.29%). The variance is attributed to movements in restricted reserves and a higher balance in Restricted Cash Investments.

13 The full year forecast for Reimbursements has been forecast to be \$224,649 (12.00%) below the budget of \$1,871,673. The primary variances are due to lower than budgeted income in the following areas:

- \$321k - Lower recoup from Coppin Road Transfer Station including the CDS project operations (based on the level of expenditure);
- \$26k - Lower recoup from Baywaste Transfer Station operations (based on the level of expenditure);

This is offset by reimbursements higher than budget in the following areas:

- \$115k - Higher recoup from Mathieson Road Transfer Station operations (linked to the level of expenditure).

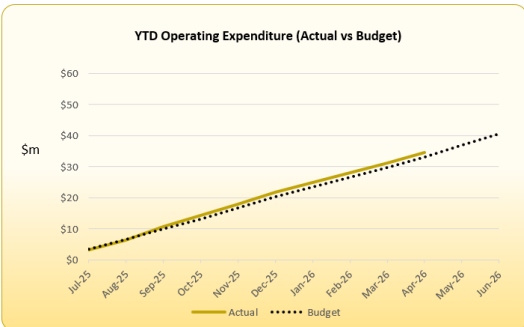

14 The full year forecast for Other Income of \$2,691,983 is \$252,698 (10.36%) above the budget of \$2,439,285. This increase is due to additional income from the sale of ACCUs.

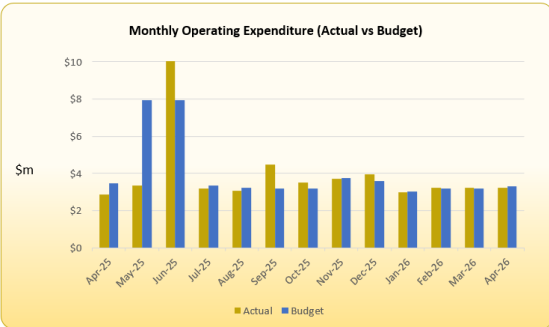

Operating Income Variances not previously reported to Council

15 Year to date Operating Grant is \$263,500 (47.31%) below the budgeted amount of \$557,000 due to the timing of income recognition. The first Food Waste for Healthy Soils grant instalment of \$250,000 for the FOGO Infrastructure Project received during the year has been deferred and recognised as unspent grant as the project has been delayed and will not be completed within this financial year. The funding will be recognised as income upon project completion in a future reporting period.

19 Year to date Fuel Expenses of \$1,453,365 is \$272,655 (15.80%) below the budget. The variance is attributed to reduced plant utilisation resulting in lower fuel expenditure.

20 Year to date Insurance Expenses is \$166,307 (23.61%) below the budget of \$704,365 due to the lower than budgeted insurance premium for Waste Transfer Station from previous financial year.

- 21 Year to date Depreciation Expenses of \$9,761,999 is \$4,198,448 (75.46%) higher than the budget. The variance is primarily due to higher tonnages received in Class III Cell and the new depreciation rate that has been applied to Class III cell to reflect the costs associated with Class III stage 17, 14 and 16.
- 22 Year to date Miscellaneous Expenses is below the budget by \$596,573 (46.99%) due to lower transportation costs incurred at the Waste Transfer Station. This decrease was a result of lower tonnages being received at the station.

- 26 The full year forecast for Depreciation Expenses is \$3,844,041 (57.59%) above the budget of \$6,674,450. The variance is attributed to the higher Depreciation Expenses - Cell Usage due to the additional commercial tonnages forecast to be received at Red Hill.
- 27 The full year forecast for Miscellaneous Expenses has been forecast to be \$406,846 (27.89%) below the budget of \$1,458,798. The principal variances are due to lower than budgeted expenditure in the following areas:
 - Transportation expenses between the sites by \$200k;
 - Council rates and charges expenses by \$185k; and
 - Conference or seminar fee expenses by \$17k.
- 28 The variance relates to the adjustment in the estimated of future value of Post Closure and Site Rehabilitation Provisions in response to the change in the Consumer Price Index (CPI) and the additional costs due to higher forecasted tonnages.

14.4 REVIEW OF DELEGATED POWERS AND DUTIES

D2026/07942

PURPOSE OF REPORT

To complete the annual statutory review of the exercise of powers and discharge of duties delegated by Council.

KEY POINT(S)

- It is a requirement of section 5.18 of the *Local Government Act 1995* (the Act) that the delegations made by the Council to Committees are reviewed in every financial year.
- It is a requirement of section 5.46 of the Act that the delegations made by the Council to the Chief Executive Officer (CEO) are reviewed in every financial year.
- The delegation of powers and duties remaining current are recommended for review and to be re-affirmed by Council.

RECOMMENDATION(S)

That Council in accordance with s.5.18 and s.5.46 of the *Local Government Act 1995* reviews and adopts the delegations made to the Committees and the Chief Executive Officer respectively as detailed in the EMRC Delegations Register forming attachment 2 of this report.

SOURCE OF REPORT

BACKGROUND

- 1 It is a requirement of section 5.18 of the Act that the delegations made by the Council to Committees are reviewed at least once in every financial year.
- 2 It is a requirement of section 5.46 of the Act that the delegations made by the Council to the CEO are reviewed at least once in every financial year.

REPORT

- 3 The list of Council decisions to delegate its powers or duties to a Committee or to the CEO are listed the EMRC Delegations Register forming attachment 1 to this report.
- 4 The EMRC Delegations Register is maintained as a live document with each new delegation recorded and is published on the EMRC website.
- 5 Only the decisions which are still current are being recommended to Council for review and to be re-affirmed in the EMRC Delegations Register.
- 6 There is a legal distinction between a delegation and an authorisation.

- 7 A delegation entails the conferral of full discretionary powers pursuant to an express statutory power. A delegate decides in their own name.
- 8 An authorisation is an authority granted to a position or person to undertake a function for and on behalf of the authoriser. The authorised person decides in the name of the authoriser, not their own name.
- 9 Section 5.45 of the Act states that in relation to delegations, nothing prevents a 'local government from performing any of its functions by acting through a person other than the CEO' or 'a CEO from performing any of his or her functions by acting through another person'.
- 10 Another method of providing decision making authority can be through the policies adopted by the Council and the procedures prepared by the CEO. For example, the purchasing policy adopted by the Council should provide authority for the CEO and other employees the CEO authorises to incur liabilities and procure goods and services for the local government.
- 11 Authorisation limits for EMRC officers are subject to a management guideline - Authorisation of Expenditure for such operational matters.
- 12 The following table summarises a number of changes to the EMRC delegations register that is included in the updated and proposed EMRC Delegations Register forming attachment 2 of this report and for Council's adoption.

14.5 SALE OF ARTWORKS

D2026/08735

PURPOSE OF REPORT

The purpose of this report is to seek Council's approval to deaccession and sell of artworks held at the EMRC council administration office that are no longer required and to approve the associated removal of those assets from the asset register.

KEY POINT(S)

- As part of EMRC's ongoing asset management, officers have reviewed the artworks asset register and identified proposed artworks that EMRC currently holds for sale and disposal because they are no longer displayed, duplicated or not suitable for future use.
- One of the artworks proposed for sale listed in this report has individual written down value greater than \$20,000 and is not being replaced with new assets value below \$75,000.
- As a result, Council approval for deaccession, sale and disposal under s.3.58(2) of the *Local Government Act 1995* is required.

RECOMMENDATION(S)

That Council:

1. In accordance with s.3.58(2) of the *Local Government Act 1995* approves the sale and disposal of the proposed artworks listed in this report via public auction.
2. Approves the removal of the disposed artworks from EMRC's asset register subject to sale to ensure accurate financial reporting.

SOURCE OF REPORT

Employee Disclosure under s.5.70 of the *Local Government Act 1995*:

Author(s)	Manager Financial Services	Nil
Responsible Officer	Chief Financial Officer	Nil

BACKGROUND

- 1 As part of EMRC's ongoing asset management and financial reporting processes, officers have undertaken a review of the Artworks asset register to ensure accuracy, relevance and aligned with current requirements.
- 2 The review process involved consulting with relevant managers, asset custodians, and finance staff to identify artworks that are no longer displayed, duplicated or not suitable for future use.

REPORT

- 3 The artworks proposed for sale listed in this report are Council-owned assets and have been assessed as surplus for the EMRC with a written down value total of \$83,000 as at 30 April 2026.
- 4 Sale of the artworks will reduce ongoing storage and conservation costs and will bring in additional cashflow.
- 5 Sale and disposal of the artworks will be conducted at the public auction in accordance with s.3.58(2) of the *Local Government Act 1995* to provide a transparent, competitive process and maximise potential return.
- 6 In the event that the final bid at the public auction is below the reserve price, the CEO is authorised to finalise negotiation with the bidder.
- 7 If staff members are interested in artworks, it is recommended that they attend the public auction.
- 8 Artworks proposed for sale are listed in the table below.

RECOMMENDATION(S)

That Council:

1. In accordance with s.3.58(2) of the *Local Government Act 1995* approves the sale and disposal of the proposed artworks listed in this report via public auction.
2. Approves the removal of the disposed artworks from EMRC's asset register subject to sale to ensure accurate financial reporting.

Discussion ensued.

The Acting CEO confirmed that the sale of EMRC artworks will be undertaken via public auction. Independent valuations will be used to set reserve prices for the auction.

A total of 54 artworks are proposed for disposal. Following the sale, the EMRC will retain no artworks on its asset register. The Acting CEO advised that proceeds from the sale will be recorded in the Statement of Comprehensive Income in accordance with the Financial Management Regulations. A post-auction report can be provided to Council if requested.

In response to questions regarding artwork held at other sites, the Acting CEO advised that Red Hill Waste Management Facility and Hazelmere Resource Recovery Park hold minimal artwork and none are significant pieces. Some artworks had historically been hosted on behalf of artists at Ascot for potential sale, but this practice has not occurred for some time. There is no indication on the asset register that any artworks were gifted or encumbered.

Cr Ostaszewskij indicated his support for the recommendation and did not consider a further report to Council necessary, noting that Councillors may request information on sale outcomes if required.

COUNCIL RESOLUTION(S)

MOVED CR OSTASZEWSKYJ

SECONDED CR POLIWKA

THAT COUNCIL:

1. IN ACCORDANCE WITH S.3.58(2) OF THE *LOCAL GOVERNMENT ACT 1995* APPROVES THE SALE AND DISPOSAL OF THE PROPOSED ARTWORKS LISTED IN THIS REPORT VIA PUBLIC AUCTION.
2. APPROVES THE REMOVAL OF THE DISPOSED ARTWORKS FROM EMRC'S ASSET REGISTER SUBJECT TO SALE TO ENSURE ACCURATE FINANCIAL REPORTING.

14.6 APPOINTMENT OF AN INDEPENDENT PRESIDING MEMBER AND INDEPENDENT DEPUTY TO THE PRESIDING MEMBER TO THE AUDIT, RISK AND IMPROVEMENT COMMITTEE (ARIC)

D2026/08826

PURPOSE OF REPORT

The purpose of this report is to seek Council approval to commence a process to appoint an independent Presiding Member and independent Deputy to the Presiding Member of the Audit, Risk and Improvement Committee (ARIC).

KEY POINTS

- Recent reforms to Western Australian local government legislation require Audit Committees to transition to Audit, Risk and Improvement Committees (ARICs) from 1 January 2026.
- Under the amended legislation, the Presiding Member and Deputy to the Presiding Member of an ARIC must be independent persons and cannot be Council members.
- The requirement to appoint an independent Presiding Member and Deputy to the Presiding Member is intended to strengthen governance, transparency, and accountability within local governments.
- Councils are provided with a transition period up to 30 June 2026 to implement the new ARIC requirements.
- A structured and transparent appointment process, including a Council workshop to shortlist candidates, supports good governance and informed decision-making.

RECOMMENDATION(S)

That Council:

1. Notes the legislative changes requiring the appointment of an independent Presiding Member and independent Deputy Presiding Member to the Audit, Risk and Improvement Committee.
2. Endorses the proposed process to conduct a Council workshop to shortlist suitable independent candidates.
3. Requests the Chief Executive Officer table a further report to the 25 June 2026 Ordinary Council Meeting recommending appointments of the independent members.

SOURCE OF REPORT

Employee Disclosure under s.5.70 of the *Local Government Act 1995*

Author(s)	Manager Information Services	Nil
Responsible Officer	Chief Executive Officer	Nil

BACKGROUND

1. The reforms arise from the commencement of the *Local Government Regulations Amendment Regulations (No. 4) 2025*, which amend the *Local Government (Audit) Regulations 1996* and form part of the broader local government reform agenda implemented through the *Local Government Amendment Act 2024*.
2. From 1 January 2026, audit committees are formally required to operate as Audit, Risk and Improvement Committees, with an expanded role that includes oversight of risk management and continuous improvement systems.
3. Significantly, the amended legislation requires that:
 - The Presiding Member of the ARIC must be an independent person; and
 - The Deputy to the Presiding Member must also be independent and neither may be a Council member of the local government or of any other local government.
4. These requirements are prescribed in the amended s.7.1A of the *Local Government Act 1995* and supported by updates to the *Local Government (Audit) Regulations 1996*.
5. At the Special Meeting of Council held on 7 August 2025 the Audit Committee was renamed to the Audit, Risk and Improvement Committee (ARIC) (D2025/13770). The Terms of Reference were also revised to ensure compliance with the new regulations and the appointment of an independent ARIC Chairperson and an independent Deputy ARIC Chairperson.
6. The ARIC was established to assist Council in fulfilling its responsibilities for:
 - Financial reporting and audit oversight
 - Risk management and legislative compliance
 - Maintaining effective systems of internal control
 - Supporting continuous improvement across the organisation.
7. Historically, audit committees were commonly chaired by elected members. However, the State Government has determined that greater independence at the chairing level is necessary to enhance objectivity, professional oversight, and public confidence in local government governance practices.
8. The requirement for an independent Presiding Member and Deputy to the Presiding Member reflects a clear policy shift towards independent oversight, particularly in relation to financial management, risk, and compliance functions.

REPORT

9. Transitional provisions allow existing committees time to adjust to the new arrangements, with all local governments required to be fully compliant by 30 June 2026.
10. To ensure a robust, transparent, and merit-based appointment process, it is proposed that Council conduct a workshop to consider suitably qualified independent candidates from the Pool of Independent Presiding Members for Local Government ARICs established by WALGA.
11. A map of the process as well as the proposed timeline form the attachment to this report.

12. A further report will be brought to June 2026 Council meeting recommending the appointment of the independent members as well as the appointment of:
- An Independent Presiding Member, and
 - An Independent Deputy Presiding Member,
- in accordance with the legislative requirements.

STRATEGIC / POLICY IMPLICATIONS

13. The proposed approach aligns with Council's governance framework and supports compliance with:
- a the revised legislative framework for ARICs, and
 - b Council's commitment to strong governance, accountability, and risk management practices.

FINANCIAL IMPLICATIONS

14. Costs associated with remuneration of independent ARIC members.

RISK MANAGEMENT

Risk – Failure to appoint an independent Presiding Member and Deputy to the Presiding Member will result in a breach of the requirement of s.7.1A of the *Local Government Act 1995*.

RECOMMENDATION(S)

That Council:

1. Notes the legislative changes requiring the appointment of an independent Presiding Member and independent Deputy Presiding Member to the Audit, Risk and Improvement Committee.
2. Endorses the proposed process to conduct a Council workshop to shortlist suitable independent candidates.
3. Directs the Chief Executive Officer to table a further report to the 25 June 2026 Ordinary Council Meeting recommending appointments of the independent members.

Discussion ensued.

Council considered the requirement to appoint an Independent Presiding Member and an Independent Deputy Presiding Member to the Audit, Risk and Improvement Committee (ARIC), in line with recent legislative changes.

In response to questions, the Acting CEO confirmed that the roles of the current Chair, Cr Poliwka and Deputy Chair, Cr Ostaszewskij will cease in relation to presiding functions, as legislation now mandates that both the Presiding Member and Deputy to the Presiding Member must be independent members. Councillors will continue as Committee members.

The Committee structure will therefore include one independent full member (Presiding Member) and one independent deputy member. Only one independent member will sit on the Committee at any given time, with the deputy attending only when required to deputise.

The independent members will be sourced from the WALGA Panel, and remuneration arrangements will be presented to Council in a report at the June 2026 Council meeting. Councillors noted that sitting fees may also be discussed at the upcoming workshop prior to the formal appointment report being presented for endorsement.

Clarification was provided that the independent deputy is not a full member of the Committee and only participates when the Presiding Member is unavailable.

The Deputy Chairperson expressed support for the revised structure of the Audit, Risk and Improvement Committee and acknowledged the transition to an independent presiding arrangement.

6 Decision Items

6.1 INQUIRY INTO SOLAR PANEL REUSE AND RECYCLING IN AUSTRALIA

MUNICIPAL WASTE ADVISORY COUNCIL MOTION

That the Municipal Waste Advisory Council note feedback provided to the Parliament of Australia on their Inquiry into solar panel reuse and recycling in Australia Terms of Reference.

Moved: Cr Andrew Sullivan

Seconded: Cr Andrew Maurice

CARRIED

Executive Summary

- On 4 February 2026, the House of Representatives Standing Committee on Climate Change, Energy, Environment and Water adopted an inquiry into solar panel reuse and recycling in Australia.
- The feedback was developed in line with [WALGA's Advocacy Position on Product Stewardship](#) and previous Submissions on [Photovoltaic Product Stewardship](#).

Background

Local Governments are responsible for the collection and management of the majority of waste including electronic waste (from households) and, importantly, are the first point of contact for residents with waste management queries.

The Clean Energy Council estimates the cumulative volume of end of life solar panels is expected to reach 1 million tonnes by 2035, driven by the increase in rooftop system installation and Government focus on renewable energy infrastructure. While 95% of solar panels are recyclable, only 17% of household solar panels are currently being recycled.

WALGA's 2022 [Issues Paper on Photovoltaic Product Stewardship](#) identified barriers to managing solar PV waste include:

- costs associated with collecting and transporting removed panels
- lack of policy direction by the Government for PV panel collection or disposal
- lack of information on PV panel recycling
- lack of PV panel tracking
- small volumes of waste in remote regions
- lack of repair and reuse options
- limited recycling options for the product.

These barriers have been captured in the draft Terms of Reference, however many of the points can be addressed through the implementation of a national, mandatory product stewardship scheme.

Comments

WALGA considers that a primary focus of the Inquiry should be on the necessary steps to establish a mandatory product stewardship scheme which fully covers the costs of collecting, transporting and processing solar panels for recovery.

The Officers Advisory Group supported prioritising the development of a product stewardship scheme and highlighted the need to better understand barriers to market participation, as well as the economic factors contributing to the low rate of solar panel recycling.

Discussion at Municipal Waste Advisory Council

The Council noted the Inquiry into solar panel reuse and recycling in Australia, with no additional comment. The importance of providing input to Inquires was highlighted, as WALGA has been invited to present to the Inquiry into the current state of the Australian Tyre industry, following a submission.

6.2 BETTER PRACTICE SHOPPING TROLLEY ILLEGAL DUMPING GUIDELINE

MUNICIPAL WASTE ADVISORY COUNCIL MOTION

That the Municipal Waste Advisory Council endorse the Better Practice Shopping Trolley Illegal Dumping Guideline.

Moved: Cr Andrew Sullivan

Seconded: Mayor Alison Xamon

CARRIED

Executive Summary

- In 2016, WALGA developed a Shopping Trolley Illegal Dumping Background Paper following a 2015 survey and email questionnaire to understand the impact of illegally dumped shopping trolleys on Local Government operations.
- Following discussions with the Reducing Illegal Dumping Working Group and WALGA's Governance Team, the Guideline has been updated to reflect current practices and requirements, while retaining the key principles that remain relevant.

Background

The illegal dumping of shopping trolleys continues to be a significant issue for both Local Governments and retailers. Once a trolley is removed from retail premises and abandoned,

responsibility for collection typically falls to Local Governments. Local Governments have several legislative avenues available to address the illegal dumping of shopping trolleys.

The Better Practice Guideline (**attached**) outlines recommended approaches for Local Governments, including recording associated costs, adopting or modifying the Activities in Thoroughfares and Public Places Local Law, engaging with retailers, implementing cooperative monitoring arrangements, considering planning requirements for new shopping areas, and introducing a dedicated Local Law.

Comments

The Guideline helps Local Governments identify practical opportunities to reduce the burden of shopping trolley management and minimise the impacts of illegally dumped trolleys on their operations.

The Officers Advisory Group considered the Guideline was useful and recommended it for endorsement by the Municipal Waste Advisory Council.

Discussion at Municipal Waste Advisory Council

The Council endorsed the Better Practice Shopping Trolley Illegal Dumping Guideline with no further comment.

7 Discussion Items

7.1 REVIEW OF INFRASTRUCTURE ADVOCACY POSITION

Executive Summary

- The Advocacy Position 7.7 Waste Management Infrastructure was endorsed in 2011.
- WALGA are progressively reviewing and updating Advocacy Positions.
- The current Advocacy Position identifies issues but does not clearly outline what Local Governments are seeking.
- Infrastructure needs and options for regional collaboration are interrelated, as often one of the main reasons for regional collaboration is tonnage aggregation for infrastructure projects.

For discussion

- Challenges in relation to infrastructure development include:
 - Aggregating tonnage to leverage private sector investment
 - Suitable locations for infrastructure which sufficient buffer
 - Limited data to inform infrastructure development and need
 - A fit for purpose State Waste Infrastructure Plan.

Background

The current Advocacy Position is:

7.7 Waste Management Infrastructure

Local Governments and Regional Councils face a number of challenges when developing and operating waste management infrastructure; most notably, the funding and planning of these facilities. Additionally, both the Metropolitan and Non-Metropolitan areas have particular local issues that can impact on waste management activities that need to be considered.

State Council Resolution: June 2011 – 74.3/2011

Feedback from the Officers Advisory Group confirmed Infrastructure and Regional Collaboration are distinct issues that require separate advocacy positions, although they are strongly interconnected. The Group suggested the advocacy position focus on:

- Investment in infrastructure that supports a broader range of Local Governments within a region, taking into account optimal location, ongoing operational costs, and equitable access.
- State Government funding and support to accompany policy changes, such as the e-waste ban and the introduction of targets.
- Infrastructure that enables effective separation of waste materials to generate clean feedstock suitable for private-sector investment
- Supporting the principle of managing waste as close to its source as possible.

Discussion at Municipal Waste Advisory Council

The Council supported the existing points raised in relation to the Infrastructure Advocacy Position and requested the inclusion of FOGO processing and difficult-to-handle materials, such as batteries and solar panels.

7.2 ADVOCACY GAP ANALYSIS

Executive Summary

- WALGA is undertaking a gap analysis to ensure that a full suite of Advocacy Positions are in place.
- Considerations in this gap analysis include any activities or material types which are not effectively covered by existing positions.

For discussion

- What are the activities that Local Government undertakes which are not captured by one of the current Advocacy Positions?
- Are there any specific material types that an advocacy position is needed on?

Background

Existing Policy Statements/Advocacy Positions and those in development include:

Number	Policy Statement /Advocacy Position
7.1	Waste Management Legislation
7.6	Container Deposit Systems
7.7	Waste Management Infrastructure
7.8	Waste Management Education
7.10	Household Hazardous Waste (HHW)
7.12	Landfill Ban
7.13	Recovered Materials Framework
7.14	Waste Levy
7.15	Product Stewardship
	In development <ul style="list-style-type: none"> • Circular Economy • Waste Management Infrastructure • Regional Collaboration

The Officers Advisory Group identified:

- Illegal dumping
- Littering
- Asbestos
- Export bans
- Right to repair
- Recognition of waste as an essential service/utility
- Principle for setting landfill fees/charges.

Discussion at Municipal Waste Advisory Council

The Council requested that other matters to be considered included construction and demolition materials, including waste management on building sites. This was in relation to mixed waste in skip bins at construction sites, as well as issues such as wind-blown litter, sediment runoff and pallet reuse and recycling.

7.3 EMERGING ISSUE: FUEL

Executive Summary

- The increasing cost of fuel, and concerns regarding supply, have been raised with WALGA.
- WALGA has been actively engaging with Local Government and the waste industry regarding contingency planning and the impact of the price of fuel.

For discussion

- Support needed for Local Government to ensure waste management and resource recovery are prioritised and continue.

Background

WALGA has identified in discussions with State Government that priority should be given to waste management operations, including collection, transport and processing / disposal. Waste collection, transport and recovery/disposal is a core and essential Local Government service, whether it is provided directly by the Local Government or a contractor. Waste management was recognised during COVID as an occupation which required special consideration.

WALGA provided an update to the sector on Thursday 2 April [WALGA Fuel Security Update](#) regarding the situation. There is also work underway in relation to the [Fairer Fuel: Reforms to road transport orders](#). An update will be provided at the meeting.

Discussion at Municipal Waste Advisory Council

Local Governments shared that while they have not experienced fuel supply shortages, they have been significantly impacted by increased fuel costs. Contractors have applied fuel surcharges; however, the Council questioned the accuracy of these price variations. Some Local Governments are seeking to determine the actual fuel cost components within contracts, noting that the impacts are particularly acute for regional Local Governments due to higher charges.

The Executive Officer provided an update on the Fair Work Commission [emergency Road Transport Contractual Chain Order](#) and [Decision](#). The Order commenced on 21 April 2026.

Local Governments are currently budgeting for ongoing price increases, undertaking contingency planning and prioritising waste services, with a focus on essential putrescible waste services over services that may be suspended, such as verge collections. The Council also then noted potential impacts on downstream industries that rely on waste processing.

The Council discussed that WALGA should advocate to the State Government for support to assist regional Local Governments to continue to provide all waste management services.

The Western Metropolitan Regional Council advised that it has developed a formula to account for fuel price fluctuations, which is outlined on page 27 of its [2 April 2026 Ordinary Council Meeting Agenda](#).
